

## LOG OF MOORE DESERT ISLAND FIRE

REGION ONE OFFICE  
RICHMOND, VIRGINIA  
(October 21 - 30, 1947)

OCTOBER 21

- 5:00 p.m. Superintendent Hadley telephoned Mr. F.J. Allen regarding a bad fire burning toward Sargent Mountain from outside Acadia National Park.
- 5:25 p.m. Associate Regional Director Cox informed of fire by Mrs. Allen. Mr. Cox called Savage and discussed action to be taken.
- 5:40 p.m. In telephone conversation with Superintendent Hadley Savage was informed that sufficient equipment and manpower was available for the existing situation but that someone from the Regional Office was needed to share responsibility and help generally to direct suppression activities.
- 5:00 p.m. Savage contacted Regional Forester Arnold at Mammoth Cave and discussed the situation with him. It was decided that Foresters Savage and Moore would fly to Acadia. This was arranged by Savage for departure at 3:20 a.m. October 22.
- 7:00 p.m. Savage contacted Forester Smith at the latter's home and arranged for him to serve in the Regional Office until further notice.
- 7:15 p.m. Savage advised Moore of problem and plans for departure to Acadia.
- 7:20 p.m. Savage advised Cox that two plane reservations had been made and that he and Moore would leave on 3:20 a.m. plane arriving Bangor 11:00 a.m. October 22 and that Smith would serve in Regional Office.

OCTOBER 22

- 3:20 a.m. Foresters Savage and Moore left by plane scheduled to arrive at Bangor, Maine about 11:39 a.m.
- 5:20 a.m. Mr. Cox reported to Mr. Damaray (unable to contact Chief Forester Coffman).
- 11:00 p.m. Savage telephone Mr. Cox requesting four supervisory personnel, capable crew foremen and Assistant Chief Forester Cook from the Director's Office. Cox discussed sources with Smith and dispatched messages to Ivan Ellsworth at Saratoga, Hal Foster at Camden Hills, and Superintendent Freeland at Shenandoah.
- 11:15 p.m. Smith telephoned Assistant Chief Forester L. F. Cook at his home. Mr. Cook stated that he would be ready to go on further notice.

October 22 - 23 record compiled by R. W. Smith from notes taken by the several persons who gave attention to fire business in the Region One Office.

- 8:35 a.m. In telephone conversation with Mr. Cox, Ellsworth reported serious situation at Saratoga and was advised to remain there.
- 8:40 a.m. In telephone conversation Foster stated he would go immediately to Acadia.
- 9:00 a.m. Superintendent Hadley contacted. Advised situation at the moment favorable. Wind from southwest, however, predicted to rise and change to northwest in p.m. Experienced crew foreman needed. About 1000 men fighting fire.
- 9:10 a.m. In telephone conversation Chief Ranger Gibbs of Shemadnoch stated that Ranger L. T. Berg with three crew foremen left Shemadnoch by car for Washington at about 8:15 a.m. Wirth had been requested to obtain plane reservations for them to Bangor, Maine.
- 9:40 a.m. Coffeen informed Regional Office that Wirth had arranged for a Navy plane to fly Larry Cook and the Shemadnoch foremen to the fire.
- 12:00 noon Report from Acadia noted little change in situation. Report from Acadia advised brisk wouthwest wind driving fire toward Bulls Cove. Park fire line from about center west shore Eagle Lake follow carriage road to Gilmore Meadow; thence north to Aunt Betty Pond being mopped up by seventy men. Forty men making direct attack on fire line west of Aunt Betty Pond. Town crews working to stem advance of fire toward Bulls Cove. Lake Wood area may be lost.

## OCTOBER 24

- 1:00 a.m. Foster telephoned Smith at latter's home stating that 45 mile an hour wind has taken fire out of control on all fronts; that village of Bar Harbor was burning along Mount Desert Street and whole situation was in a state of confusion. Additional help not requested in this conversation. Savage having advised that no additional help be dispatched at this time.
- 7:00 a.m. By phone Smith informed Mr. Allen of message received from Foster.
- 8:35 a.m. Cox called Ellsworth at Saratoga and advised him to be prepared to go to Acadia.
- 9:45 a.m. Telephone contact established with Acadia. Report stated need for twenty supervisory personnel and equipment including six power saws, up to ten portable power pumps, twenty miles of 1 1/2 inch hose, one hundred back-pack pumps, all to be supplied as rapidly as possible by air. Regional Forester Arnold and Forester Walker desired if available. Approval of expenditure of five thousand dollars (\$5,000) was also requested and approved. Report of the fire front was made and recorded on a map. In telephone contact with the following areas, at intervals up to 4 p.m., arrangements were made to dispatch twenty men: Blue Ridge Parkway - Chief Ranger Campbell, Park Warden Luck and one other; Colonial - Park Ranger Ernest L. Wright, Jr.; Great Smoky Mountains - Park Wardens Price and Wiegeler, and Foreman Dunn; Mammoth Cave - Chief Park Ranger Granville B. Miles, Park Ranger Eugene D. McKeown, Maintenance

Foreman, L. E. Reynolds, Laborers J. T. Hall and G. L. Sanders; Perry's Victory - Custodian J. R. Premies (by telegram); Saratoga - Custodian I. J. Ellsworth; Shannandoah - Chief Ranger R. F. Gibbs, Ranger J. E. Van Weldon, and three others. Contact with the War Assets Administration in Richmond, Virginia made four power saws available for immediate delivery; 7 Pacific portable power pumps located at Norfolk (later found to be unavailable).

10:00 a.m. Mr. Allen called Director Drury. With Mr. Coffman on line also, a report of conditions and activities was made. Mr. Drury urged that special attention be given to coordination of the fire control operation under a clearly established fire boss. Wirth and Coffman stated that the Director's Office will arrange for transport of men and equipment. List of needed equipment was given and they agreed to try to locate it.

12:30 p.m. Superintendent Hoskins, called by Mr. Cox, offered to send Liles and <sup>at least</sup> two other qualified fire crew foremen by plane from Fort Knox to Washington if the Army authorities would provide plane service. At 2:00 p.m. Hoskins advised that five qualified fire control supervisors were being dispatched by Fort Knox Army planes to Washington. Mr. Chorley's assistant, Mr. Boyer, was informed that Mr. Rockefeller's estate was not yet harnessed. Telephone call by T.J.A.

3:00 p.m. Mr. Coffman advised that the Director's Office had located 10 miles of hose and 100 back-pack pumps. Procurement and dispatch to Acadia were requested. Mr. Wirth stated that arrangements had been made for Army planes to fly men and equipment to Acadia and that schedule of arrival of men in Washington was needed. In a later telephone conversation Wirth and Coffman were informed of scheduled arrival of NPS supervisory personnel in Washington. Wirth gave the scheduled Army flights for these men: One plane from Andrews Field at 5:30 a.m. to take 10 NPS personnel, in addition to 10 USFS Region 8 qualified fire control personnel who would board the plane at 1:30 a.m. in Atlanta, Georgia; a second plane to take the balance of the NPS personnel and equipment, leaving from Bolling Field about 7:00 a.m. Arrangements for quartering personnel in Washington were being made. The Director's Office was informed that Jim Myers was enroute to Washington with the four gasoline power saws. That Office advised that it was arranging for 20 miles of hose to be flown to Saw Field (Ranger) from Newport and for six power pumps from a point in Wisconsin.

4:30 p.m. Regional Forester Arnold telephoned a second time advising that he will fly from Knoxville to Washington if possible; otherwise, he will fly direct to Bangor, Maine, arriving 11:30 a.m., October 25.

8:30 p.m. From Acadia Forester Savage reported little change in the fire front, not controlled. Savage is fire boss with Superintendent Hadley and Assistant Chief Forester Cook serving in a fully integrated and coordinated organization. About one-fourth of Bar Harbor reported burned, Superintendent's house and Old Barn escaped.

5:45 p.m. The Director's Office was informed of report from Acadia. Information regarding arrangements for personnel and equipment was exchanged.

7:00 p.m. Mr. Allen was informed by the Washington Office that four Army planes were enroute to Dow Field, Bangor, Maine, with 114,000' of hose from Newport and 100 backpack pumps from Schenectady, New York, scheduled to arrive tonight; that six Pacific Marine portable power pumps would reach Dow Field at 8:10 p.m. Saturday night; that headlights would be at Concord, New Hampshire, at noon Saturday, and could be obtained through the Forest Service at Laconia, New Hampshire; also that portable power pumps were being flown to Bartlett, New Hampshire by the Forest Service and would be available if needed. Smith relayed this information to Captain Sestakas, Dow Field, who said the Adjutant's Office at Dow Field had radio contact with Mr. Savage and would give the message to him and receive the hose and arrange to truck it to Acadia National Park.

OCTOBER 25

Washington Office advised that Army planes got off with fire control personnel and equipment, as follows: 1 from Andrews Field at 6:24 a.m. with 11 HP3 men in charge of Chief Ranger Gibbs of Shomandash, and 10 U.S. Forest Service personnel (1 forest supervisor, several assistant supervisors, and several forest rangers); 2 from Bolling Field at 7:07 a.m. with 7 HP3 men, including Regional Forester Arnold, 4 power saws, 1 power pump, 34 headlights. The planes which transported hose from Newport were able to take on only about 12 miles. Mr. Coffman suggested that reports from Acadia to the Director's Office by radiogram might be helpful if they could be conveniently arranged.

10:50 a.m. (Approximately) Report from Acadia. Fire front is little changed, southwest wind favoring control but fire still out of control, spreading westward on line from Cadillac Mountain to Eagles Crag. Organization is established with three sectors, four sectors planned upon arrival of more overhead. Two observation flights daily have been arranged by Army. Army provides men on requisition, 220 now, 400 for tonight. Phone connections to sectors are being provided by Army Signal Corps. Hal Foster and all Camden Hills equipment are in service at Acadia, Camden situation considered safe at this time. Equipment has been rolling in satisfactorily. The balance of the hose from Newport is needed as water is most effective and a hose line to the top of Cadillac Mountain is planned. The backpack pumps have not arrived, and are needed; 50 have been purchased locally.

11:20 a.m. (Approximately) Mr. Allen informed the Director's Office of Acadia's report. Requested that the balance of the hose from Newport be flown to Acadia. An afternoon report to Mr. Allen at home gave little change in the situation. The reinforcements had arrived.

Reports from Acadia to Mr. Allen indicated little change, progress being made in establishing control.

OCTOBER 27

- 7:15 a.m. (Approximately) Advice from Acadia to Mr. Allen.
- 7:40 a.m. Mr. Allen informed Smith that arrangements were made for Mr. Allen and Mr. Coffman to fly to Acadia, via Army plane leaving Bolling Field about 9 a.m. with Mr. Coffman, stopping at Richmond for Mr. Allen. Acadia requested that a pump be flown in. Smith telephoned Chapmanville RMA and arranged with Mr. Weigand for a power pump to be prepared and delivered to the Operations Office at Bolling Field for shipment on the plane with Mr. Coffman. Sgt. Reicher at that office was contacted and asked to hold the plane until the pump was delivered. During the morning telephone conversations with Savage at Acadia it was disclosed that the six power pumps from Wisconsin and much of the hose had not been received. Walker checked with Army officials in Washington and relayed information that delivery had been completed to Dow Field. Further checking at Acadia disclosed that the pumps and hose had gotten into other hands; the equipment was later located and obtained, fulfilling the need for that type.
- 11:00 a.m. (Approximately) Savage asked for 100 topographic maps of Acadia NP and Vicinity, 1942 edition, 500 Pulaski tools, and later (11:45 a.m.), 1000 flashlight batteries. These requests were transmitted to the Director's Office which arranged for delivery. The Pulaskis were to be flown from Spokane, Washington, R-1 Forest Service warehouse, and would not arrive until Tuesday night.
- 1:30 p.m. Plane with Mr. Coffman and Mr. Allen left Richmond for Acadia with one pumper aboard.
- 3:40 p.m. Report from Acadia stated good progress, the six pumps and hose located, situation favorable, southerly wind. Area burned; total approx. 23 sq. mi. or 18,560 acres; inside park approximately 16 sq. mi. or 10,240 acres; fire line now 24.25 mi. Savage was informed that batteries and maps should arrive Dow Field around 9:30 p.m., Pulaski tools Tuesday evening.
- 4:00 p.m. Director's Office was informed of Acadia's report.
- 4:45 p.m. Acadia reported fire declared under control at 4:40 p.m. This news was immediately relayed to the Director's Office.

OCTOBER 28

- 3:30 a.m. Mr. Allen called saying that the fire is under control and they are now mopping up. Everyone all right. He requested that we send them 3 pick-up trucks and one dump truck. They need them quickly and badly. He instructed us to have ten men alerted in Region Two to be ready to go to Acadia at once in case of emergency there again. He wanted these men to be those who are experienced in water pumping, etc. He should also have Ralph Shaver, Cronsky, and McCampbell alerted at Great Smokies in case of an emergency at Acadia.

- 9:00 a.m. Mr. Cox called Mr. Wirth in Washington asking them if they could get the trucks to Acadia through Procurement. Mr. Wirth said he would see what he could do. He also said he would have the men in Region Two alerted.
- 9:05 a.m. Mr. Lisle called Superintendent Blair Ross at Great Smokies and requested that he alert Ralph Shaver, Owensby and McCampbell. Supt. Ross said he would do this.
- 11:00 a.m. Mr. Wirth called and said he had located the trucks at Somerville, Massachusetts and thought he could get them. He would let us know more later.
- 12:15 p.m. Superintendent Ross called and said that Owensby would rather not fly and asked if it would be okay to substitute Marrell instead. It was agreeable to us so Marrell was alerted instead of Owensby.
- 1:10 p.m. Mr. Wirth and Mr. Walker called and said that they could not get the trucks until Thursday and advised us to try to get the trucks somewhere else. He also said that he had six men alerted at Yellowstone and six at Glacier National Parks. Mr. Walker asked Mr. Cox if he knew the cause of the fire. Mr. Cox said he did not. Mr. Walker advised that he ask that question the next time he talked to Acadia.
- 1:20 p.m. Mr. Cox called Mr. Palmer at Vanderbilt Mansion and asked him if he could send trucks to Acadia. He said he would send his dump truck and two pick-ups and have them on the way as soon as possible. Would wire us when they were on the way.
- 1:30 p.m. Mr. Cox called Mr. Small at Salem Maritime National Historic Site and asked him if he could send a truck. He said his truck was rather old and the man who drives it was off today but he would try to round him up and have him on his way. Would wire us when he was on his way.
- 2:00 p.m. Mr. Cox called Acadia and talked to Mr. Savage and Mr. Allen. Mr. Savage said he would rather have the new trucks even if they had to wait until Thursday to get them. He said that the Air Corps would stay with them until Saturday. He said they needed something new so they wouldn't have to do any repairing. They were having trouble with broken down equipment now. Mr. Allen wanted to know what kind of estimate the Director wants regarding the fire. They had no statement to make as to the cause of the fire.
- 2:20 p.m. Mr. Cox called Vanderbilt Mansion and talked to Mr. Aaron. The trucks were ready to leave but Mr. Cox told them to hold everything until they heard further from us.
- 2:20 p.m. Mr. Lisle called Mr. Small at Salem Maritime and told him to hold up his truck going to Acadia.
- 2:30 p.m. Mr. Cox called Mr. Wirth in Washington and told him to go ahead on the new trucks. Mr. Wirth asked if they could use a stake body truck instead of a dump truck. He wanted to know where they would get the cash to pay for the trucks. Mr. Cox was under the impression it would be paid out of the Acadia appropriation. Mr. Allen had said "Don't be Scotch!" Mr. Smith asked Mr. Wirth what kind of estimate they wanted regarding the fire. Mr. Wirth said they wanted a complete estimate of everything

and the more detailed the better. He said they needed to have as detailed an estimate as possible while the "iron is hot" in order to get funds replaced. He said he would call us back when he had something definite on the trucks.

- 4:05 p.m. Mr. Wirth called from Washington. He advised that he had purchased 3 pick-up trucks (1 ton) and one stake body truck, Purchase Order 6-37518, at Somerville, Massachusetts. Man to contact is Mr. Fred Bergman, Ford Motor Company, 183 Middlesex Avenue, Somerville, Massachusetts. They are to be ready on Thursday morning, but if the men showed up on Wednesday Mr. Wirth believed we could get them then. Mr. Cox advised that they had no statement to make as to cause of fire.
- 4:15 p.m. Superintendent Ross called from the Great Smokies and said that their three men had reservations on the 6:15 plane out of Knoxville. He wanted to know if the men should stand by.
- 4:20 p.m. Mr. Cox again talked to Mr. Savage. He was pleased to know about the new trucks. He said they had had a busy day and the fire was still going but was checked. They had hopes of rain by Thursday. He said they hadn't heard about the Pulaski tools but should get them in the late afternoon sometime.
- 4:45 p.m. Mr. Cox called Mr. Small and told him about the trucks. Mr. Small was familiar with the location of the Ford plant and promised to contact Custodian Corry at Adams Junction and he and his men from Salem would each drive a truck to Acadia. He said he would get a fourth man to drive one of the trucks. He will wire us when they are on their way.

#### OCTOBER 29

- 3:55 p.m. Mr. Allen, speaking from Acadia, stated that the Pulaski tools had not yet arrived, that George Walker in Washington had been informed and would follow up. There are 190 men on fire line today. The supervisory personnel in Region Two and Smokies should remain on standby. A little rain fell at Acadia.

#### OCTOBER 30

The Director called and relayed information from Acadia which had been given by Mr. L. F. Cook. Conditions are about the same. Insufficient rain fell to be effective. There are now 50 Army men, 50 from University of Maine, and 10 from Bangor on the fire. The overhead in Region Two and Great Smokies should be held on standby.

## LAC OF MOORE DESERT ISLAND FIRE

ACADIA NATIONAL PARK  
(October 17 - November 14, 1947)

OCTOBER 17

- 4:45 p.m. Report from Fire Chief Sleeper. Fire at Fresh Meadow. Need portable pump, hose and few men.  
8:45 p.m. Dispatched fire truck, 2 1/2 and 1 1/2" hose, two pumps, dump truck and 6 men.

OCTOBER 18

- 12:00 Noon Park was released from fire. Chief Sleeper requests operators to be placed on standby. Equipment still on line. Fire controlled.

OCTOBER 20

- 10:00 a.m. Park equipment released by Chief Sleeper.

OCTOBER 21

- 8:00 a.m. Report from Sleeper, fire out of control and plenty of help needed. He has called fire companies and New Field. Park forces dispatched.  
10:00 a.m. Army from New Field arrived in 10 vehicles, distributed on lines. Field camp near CCC Camp site Eagle Lake.  
4:55 p.m. Report from Favour. Fire crossing Eagle Lake Road and entering park 1/4 mile west of Eagle Lake.  
5:00 p.m. Superintendent Hadley called Richmond reporting the fire out of control and requested assistance.  
5:40 p.m. Telephone call from Savage at Richmond. Superintendent Hadley received call and briefly outlined fire conditions. Hadley informed Savage that someone from the Regional Office was needed to share responsibility and help generally to direct suppression activities. Savage informed Hadley that he would leave by first plane available for Bangor and expected to arrive at 11:00 a.m. tomorrow, but would advise arrival time before leaving Boston. Hadley advised sufficient equipment and manpower were available and that he would have a car meet the plane in Bangor.

OCTOBER 22

- 2:00 a.m. Favour appointed Sector Boss of Aunt Betty Pond Sector.  
1:45 p.m. Savage and Moore arrive Bar Harbor. Conference with Sleeper, Campbell, Hadley, Kowack and Favour. Park and cooperating forces attempt to stop head near Aunt Betty Pond. Sleeper and forces on fire outside Park area.  
3:15 p.m. Savage and Moore started burning out along carriage road Eagle Lake to Aunt Betty Pond. Approximately 90 Army, 10 park and local and 6 University of Maine students.

- 10:20 p.m. Savage called Region. Advised of situation. Expected to secure control by midnight or shortly after at 500 to 600 acres burned inside. Had 4 supervisors and L. Cook.
- 10:35 p.m. Savage called Arnold, Mammoth Cave. Gave status of fire.
- 11:30 p.m. Savage scouting fire west of Aunt Betty Pond with Thompson, Favour and Rowack. Moore pushing line toward Aunt Betty Pond.

#### OCTOBER 23

- 6:00 a.m. Established field camp at intersection carriage roads at Gilmore Meadows. Effective liaison with Army. Fire Eagle Lake to Aunt Betty Pond under control and mop-up being pushed.
- 6:40 a.m. SW and west winds until tonight change to SE, 20-25 mph.
- 8:00 a.m. Contact with Region One. Situation favorable.
- 10:30 a.m. Mayo reports line along carriage road E. Mop-up progressing.
- 10:35 a.m. Bill Campbell requests men for assistance fire threat to Hall's Cove.
- 12:00 Noon Contact with Region. Little change. Situation favorable.
- 1:00 p.m. Favour to take charge of crew on line west of Aunt Betty Pond and close to Eagle Lake Road.
- 1:30 p.m. Dow Field No. 5000 tank pump arrived for mop-up along carriage road.
- 2:30 p.m. Report from R. Young. All OK on line from Aunt Betty Pond to Eagle Lake Road sector.
- 3:00 p.m. Field telephone installed at Field Hdqrs, Gilmore Meadows.
- 4:00 p.m. Savage called Hadley. Wind direction changed and velocity increasing rapidly. Situation approaching critical stage. Prepare for call reporting fire out of control.
- 4:05 p.m. Favour from Eagle Lake Road. Wind from SE-gale velocity. Breakover fires to west outflanking line and threatening men. Instructed to pull out and look to safety of men.
- 5:10 p.m. All men out of line. Fire over in several spots. Organizing. Headed out by carriage road toward Bubble Pond.
- 7:30 p.m. Cook and 4 men (Serg. P. E. Johnson, J. R. Johnson and Benton) arrived Bar Harbor via Seal Harbor. Fire on Sargent Mt., over Cadillac and headed toward Otter Creek.
- 8:30 p.m. Savage and Moore with men broke through fire to Bar Harbor. Fire sweeping southward.
- 10:30 p.m. Foster arrived Bar Harbor. Telephone out.
- 11:00 p.m. Foster instructed return mainland and report situation to Richmond. Savage will contact later.

#### OCTOBER 24

- 6:30 a.m. Meeting Park Hdqrs. Savage, Hadley, Cook, Moore, Rowack, Favour. Savage appointed Fire Boss. Fire Boss set up following tentative organization: Cook - Relief Fire Boss; Moore - Manpower, Liaison Army; Favour - Information and scouting; Douglas - Equipment salvage and stock piling. Four men from Shenandoah to assist in salvage of equipment; Campbell - Liaison with Bar Harbor Fire Company; Dandrea - Communications; Mayo and Rowack - Clerical, Timekeeper, etc.

- 6:30 a.m. Lts. Payne and Abbott assigned as Army Liaison with Park Service.
- 8:00 a.m. Telegram: Chief Supervisor National Park Service, Acadia NP, Bar Harbor, Me: HAVE AVAILABLE SUPPLY OF AXES WITH HANDLES AND PEAVYS WITH HANDLES ALSO SUPPLY OF SPARE HANDLES THIS EQUIPMENT ALL NEW AND AVAILABLE TO ONE OF YOUR TRUCKS ON EMERGENCY PURCHASE ORDER 24 HOURS A DAY BETWEEN HOURS OF FIVE PM AND EIGHT AM CONTACT ME CASTELL AT ORLAND MAINE TELEPHONE 325. JOHN T CLARK PEAVEY MFG CO.
- 8:45 a.m. Conference held with Chief Skipper at Fire House, Hadley, Cook, Savage, Favour and Campbell attending. Town in charge of fire north of Eagle Lake Road and east of state route 198. Park to handle all forest fire south of Eagle Lake. Will assist town when supervisory forces become available.
- 9:45 a.m. Contact Region. Need 20 supervisory and equipment including six power saws, ten portable pumps, twenty miles fire hose, one hundred back pack pumps, by air. Regional Forester Arnold and Walker if possible. Approval of expenditure of \$5000 for emergency purchases.
- 9:55 a.m. Foster called back to Acadia.
- 11:43 a.m. See telegram from John T. Clark Peavey Mfg. Co., to Chief Supervisor regarding available supply of axes, peavys, etc.
- 12:30 p.m. 200 men to arrive from Bar at 5:00 p.m. (no equipment)
- 1:25 p.m. Sector A: Berg - Sector Boss and R. Johnson, Foreman; dispatched with Doudna as guide.
- 1:30 p.m. Local crew left fire house with pumper unit.
- 1:35 p.m. Sector B: Benton, Sector Boss and Johnson, Foreman; disp. with Kemack as guide, L. Cook, observer.
- 1:50 p.m. Hadley: When Lt. (Liaison) is ready to go with hose, R. Warren with a truck is at the garage.
- 1:55 p.m. Reported 18 men, 3 small pumps, 850' 1 1/2" hose (Doudna) Sector A.
- 2:00 p.m. Foster returned to Acadia with Robertson. Stake truck, Chrysler pump, pumper and hose and hand tools.
- 2:10 p.m. Hadley: 50 back pumps to be picked up at Rockland.
- 2:30 p.m. Airplane in 30 minutes Bar Harbor Airport space for 3 rangers.
- 2:35 p.m. Gas for pumps on Sector A.
- 2:43 p.m. Left for air observation L. Cook, Savage and Favour. Moore took over as Fire Boss.
- 3:20 p.m. Men sent to Central Fire Station, Rockland Me., to pick up 50 back pack pumps.
- 3:30 p.m. Gas available at fire house for all equipment.
- 4:00 p.m. 2 men standing by, Hagerty and Davis.
- 4:20 p.m. Scout Williamson reported dangerous front at upper NE Corner of Sames Sound at Rd. intersection. Pumps and truck operating there.
- 4:35 p.m. Campbell needs 20 lengths hose.
- 5:00 p.m. Sector A - Berg: Need rations for 20 men Coast Guard crew. Need additional 20 men and tools for 40. Need lights for tonight.
- 5:15 p.m. Report to Region: Foster will remain at Acadia, unable to keep appointment at Statue of Liberty. Camden Hills equipment has been brought here. Summary of fire. Review of equipment enroute. Review of supervisors enroute. Next call to be about 9:00 a.m. on October 25.
- 5:30 p.m. Army arrived with 200 men for relief 100 to Sector A, 100

- to Sector B. Douglas at Rockland. Pumps haven't arrived yet. Hadley call 837 W Ring 2 Ellsworth, Eastern Fire Co.
- 5:25 p.m. Savage to Benton: This convey will relieve your present crew. Equipment will follow as soon as possible.
- 6:00 p.m. Berg to Savage: Please have crew of about 25 men report to sag between Bubbles and Jordan Pond Rd. equipped with hand tools including back pack pumps as soon as possible. Crew of 25 pulling out of this sector at 6:30 p.m.
- 6:15 p.m. Savage to Berg: Edwards Portable 4500' hose 1 1/2", 1 trailer pumper 500' 2 1/2" hose, Hand tools for 50 men, 22 back pack pumps. If practicable push your line along Sargent St.
- 6:35 p.m. Benton: 100 pump cans.
- 7:00 p.m. NE winds 5-10 mph. No change expected 3-4 hours.
- 7:04 p.m. Savage to Berg: Add and take over line connecting St. Rd. to Eagle Lake on NE side to your sector. Favour will show you this location. We estimate that 5 men can hold it and mop up.
- 8:25 p.m. Berg to Savage: Think all is going well now. Foster's pumps are not needed now or in near future. The 100 men who just came in will be in need of food as they haven't eaten since noon.
- 8:30 p.m. Savage to Vernon Davis: Please deliver 500' 2 1/2" hose to Maynard Blanchard for use by Jonesville truck.
- 8:50 p.m. Savage to Berg: The men are to relieve the Coast Guard (20 men). Berg to Savage: Coast Guard men have been relieved by a portion of the 100 Army Reserves.
- 10:00 p.m. Marshall at Fire House. Said he would try to get a can-teen to Jordan Pond. Savage.
- 11:35 p.m. To Savage: (via Ben Field) 114000' 2 1/2" hose will arrive at New Field tonight. 100 hand pumps early in morning. 6 power pumps will arrive Saturday night. Request where it will be used and distributed.
- 12:00 a.m. Gen. Webster and staff visited Hdqrs. Were briefed on fire. Gen. Webster requested we contact Col. Stetson and give him story of fire. Arrangements made for Moore to do as first assignment in a.m.

#### OCTOBER 25

- 12:29 a.m. Received from Radio Wash. 250403Z: 57,000' OF HOSE ARRIVING ARMY PLANE ABOUT 1 AM SAT 10 FOREST SERVICE MEN AND 17 PARK MEN ARRIVING ABOUT 9:30 AM SAT IN 2 PLANES TOGETHER WITH LIMITED FIRE EQUIPMENT AND 5 POWER Saws. 100 BACK PACK PUMPS SHOULD ARRIVE BY MIDNIGHT. 6 PORTABLE PACIFIC PUMPERS WILL ARRIVE BY AIR FROM WISCONSIN ABOUT 3 PM SAT NIGHT. RADIO VIA NAVY IN MORNING ANY ADDITIONAL NEEDS AND GENERAL CONDITION OF FIRE. COFFMAN.
- 1:35 a.m. Savage to Benton: These 4 men, Walsh, Dean, Christensen and Buck, reported they started work at 7 p.m. October 24. Please confirm this the first time you are at Hq. Relieve them with Army not later than 7 p.m.
- 3:50 a.m. and picking up from west. Savage.
- 5:30 a.m. Moore, Favour and Lt. Abbott left for Bar Harbor Airport for reconnaissance flight Moore to Bangor to confer with Col. Stetson.
- 5:53 a.m. Sunny dry and continued cool today. Increasing cloudiness not quite so cool tonight. Sunday cloudy followed by occasional very light unimportant rain. Gentle S to SE winds. (for 24 hours. WLS)

- 10:00 a.m. Moore to Garage: 15 gallon straight gasoline to Coast Guard pumper No. 1 on south end Bubble Pond as soon as possible.
- 10:15 a.m. Savage to Warehouse: Deliver to Chief Sleeper 25 council tools.
- 10:50 a.m. Phone to Region, Smith and Cox: Request 100 1942 Edition Topographic Map. Acadia NP and Vicinity, Hancock Co. Me.
- 11:44 a.m. Warren Kimball left office to pick up water wagon on Eargant and take it to Otter Point.
- 11:45 a.m. Called Bill Campbell and he will send 3 or 4 men to help.
- 11:50 a.m. Bill Campbell to Savage: 4 men left for Otter Pt. with tools at 11:55.
- 12:10 p.m. Message to Newcomb via telephone to have Moore report to Mqtrs. at once. Randall with 150 students, 40 pumps, 4 handy Billies, 1 1/2" hose, no axes or shovels. Will arrive about 1:00 pm at south end of Bubble Pond. Savage. University of Maine: Mr. Randall, Mr. Wright, Mr. Elliott, Mr. Melane, Mr. Chitty. Group 180 left Orono 8:30 am and arriving Sector B 3:00 pm. Moore.
- 12:25 p.m. Savage to Slack: Please check your warehouse attendants at once and be certain that gasoline goes to the field only in red painted cans.
- 12:25 p.m. Savage to Garage: Deliver to Newcomb 20 small l.h. shovels, 25 back pack pumps.

- 12:30 p.m. Moore to Garage: Release 4 mattocks and 1 axe to bearer.
- 12:45 p.m. Mr. Douglas: Urgently need stake side truck to go to Sossaville School to pick up some pumpers and hose. Mr. Hensack is at school house to hold pump for truck. Deliver them to Hight's warehouse.
- 1:15 p.m. Savage to T-5 south: Pumper #2, Bubble Pond 3 to 3½" reducing coupling and nipple 27"; Seal Harbor Fire Co., relayed 1:15 pm.
- 1:30 p.m. Allen and Coffman left Rolling Field about 3 am by plane with one pumper aboard.
- 1:30 p.m. Moore to Cook: Telephone jeep coming in to get another phone to install at Bubble Pond 10:30 am.
- 2:00 p.m. Arnold to Warehouse: Issue 25 back pack pumps and 15 mattocks to bearer. Arnold to Ruff: Your officer's name is Savage (1st Lieut.). Arnold to Fryman: Your officer's name is Redd (rank unknown). Arnold to Ellsworth: Your officer's name is Eroyles (rank unknown).
- 2:05 p.m. O'Ray says 40 GI's plus 10 to 15 civilians on Sector 3.
- 2:10 p.m. Moore enroute to Sanger. Confer with Col. Stetson, Dow Field.
- 2:20 p.m. Savage to Garage: Deliver to Henscomb, T-5, 40 council tools at once.
- 2:30 p.m. Savage to Warehouse: Deliver to Seal Harbor Fire Dept. 1500' 1½" linen hose.
- 2:35 p.m. Fryman estimates 15 men for 3 tonight. About 2500' hose on Cadillac Mt. that can be taken up. Savage.
- 2:50 p.m. Savage to Cooper: Cooper to Field for progress check around Otter Cms.
- 2:50 p.m. Waspitt at Fire Station advised that they had made arrangements to take care of the dynamite at the CCC Camp. Savage.
- 2:50 p.m. Henscomb reports Bubble Pond line south 1½ miles and thence east to fire line with booster at turn to East is in operation and has 1 Pacific marine in reserve. 4 nozzles were working on edge.
- 3:10 p.m. Cook to O'Ray: HE called. Needs 50 decontaminating tanks. Release to truck driver.
- 3:12 p.m. Pumper T-5 south moved north ¼ mile, Manchester. Savage.
- 3:15 p.m. Mr. Joe Richardson was advised of status.
- 3:30 p.m. Sectors A and B mighty cool, if wind blows gently the line will hold.
- 3:40 p.m. Mr. Richardson (sub for O'Ray at Otter Creek) reports Gibbs has water going on Eagles Crag.
- 3:50 p.m. Richardson says Edward Wood of Seal Harbor Fire Dept. said 6 men left for Bubble Pond at 2:00 am, and they will send 10 fresh men at daybreak to Bubble Pond.
- 4:00 p.m. Berg says 3 men would handle most of Sector A, but hasn't seen all.
- 4:15 p.m. Henscomb: 1800' unused Gov't hose 1½" plus 1000' Fire Station hose at pumper #2 (1½ mile south of Bubble Pond) and Pacific marine pump. Hose to be carried up ridge as needed.
- 4:15 p.m. Black to Fire Boss: Total of 7,000' linen hose on hand.
- 4:30 p.m. 50 lights for Henscomb. University boys went in at 3:20 p.m. 140. Fire edge on Mt. Rd. is .35 miles south of T-2.
- 4:30 p.m. Rushed CCC Camp. Pumper has been working all day. 2 or 3 spots are reasonably safe. Pumper still working.
- 4:40 p.m. Henscomb: University boys will stay tonight. Plans are that they will come out at 8:00 or 9:00, Ia, IV, Casine.
- 4:40 p.m. Fire is tied in, occasional hot flashes. Under control. Call Richardson and tell them they will not have to feed University boys. No axes. Bubble Pond T-5 pumper, 1.1 hose line along service road before line goes to Hill.

4:45 p.m. Black re Mervin Connery, Mechanic: Started working at 8:30 pm 11/26. Slept from 11:00 pm 26 to 11:00 am 27 Oct. Started work 2:00 pm 27 Oct. Sleeps upstairs in garage. Available if needed at anytime.

4:48 p.m. Sectors 1 and 2 in pretty good shape. One crew base on Sector 1, 1 Sector Base.

4:56 p.m. Ray Coleman through Seal Harbor and Richardson say all available hose laid from south end of Bubble.

4:55 p.m. Phone to Region: Gave them the information that fire was pronounced under control at 4:40 p.m.

5:00 p.m. Experienced Acadia pump operators: Herb Grindle, Martin Hodgkins, Willis Perry, Sam Gray, Jr.

5:00 p.m. Major General Van Fleet, First Army Commander, Brigadier-General Thoreau and Colonel Ferris accompanied by Major Pooler of Maine National Guard at Fire Base Office.

5:15 p.m. Relayed #4 to SE Harbor, Paul Chase, SE Harbor Fire House. See if they can send us 4 men at the telephone on Sargons's St. immediately. Eaton.

5:17 p.m. Cooper: No Otter Creek #2, now Otter Creek #3.

5:20 p.m. Coffman and Allen arrive at Fire Base Office.

6:00 p.m. Cook to All Fire Control Supervisors: Please make no changes in emergency telephone line or telephone installations. If any needed call Edgtr. and Lineman will be sent out.

6:15 p.m. O'Day wants 2 1/2" hose at South end of Bubble Pond.

6:15 p.m. Partly cloudy. Wind 18 mph SW surface winds will increase to 14-18. Later on increasing to 15-20. LFCook.

6:25 p.m. Fryman has 6800' hose and can give up 2000'.

7:30 p.m. Fryman and McLaughlin: Pretty good shape, still on top. 2 pumps below Mt. St., 1 Pacific, 1 Chrysler.

8:06 p.m. Cook relieves Savage as Fire Base.

11:30 p.m. Cook to Garage: Deliver to Cooper at Otter Pt: 1 Pacific marine pump, intake hose, gas tank and 5 gal white gas and oil, 3200' 1 1/2" linen hose.

11:50 p.m. 2000' 1 1/2" hose at Warehouse. Moore.

11:50 p.m. Phone Region to Parks: Palaskis will arrive at Dow Field evening of the 28th. Map and batteries will arrive tonight, night of 27th. Relayed estimate of acreage and miles of line.

Untimed: Pumps were delivered to Dow Field and hose either late last night or early this am. Ordered 500 palaski tools. Planned by Smith and Cox.

Untimed: Hose received: 48,400' of 1 1/2"; 3,500' of 2 1/2". Previous to receipt of 9,000' linen. This in addition to that already on hand.

Untimed: Warehouse: Please furnish Mr. Renshaw 2 chain power saws to be delivered to Capt. Ellisberg at Searsville Fire Station. Cook - Previously delivered 7:45 am. WLS.

#### OCTOBER 28

12:30 a.m. Cook to Savage, Hadley: The State Police received the following radioed message and delivered it to us: "To Ben Hadley, Acadia National Park: 5 PUMPS ALLOTTED BY GENERAL LEWIS 2 PUMPS TO JONESPORT. 2 TO GROUND 441-43 AND 1 TO REMAIN HERE." I did not understand message and requested repeat. State Police car came here and repeated but Augusta Dispatcher agreed message garbled and no signature to follow up during night. I told him we had no pump (Dispatch said they were large 7500 PM fire

trucks), had not requested any, and did not need any now. That will be held for morning and we may hear more clarification today.

- 1:15 a.m. Cooper to Fire Boss: Sgt. Parkhurst coming in for another truck load of water for spot fires. The 4 local men I have are done for and want to sleep today. Will call within hour. Getting pump location selected.
- 3:00 a.m. Cooper to Fire Boss: Suggest pumps used with salt water be tagged to show this. (I agree. LFC) (I agree. WLS) Mr. Blank, please follow through. WLS.
- 3:00 a.m. Cook to Savage, Arnold, Favour: John Cooper came in at 2:45 am from the Otter Pt. fire. He had worked 4 of O'Day's men and 4 soldiers on the fire wetting down and building line (only started). Fire 7 acres (40 chains perimeter). He placed a Pacific pumper on west side (opposite from parking area) see attached sketch. Hose is there but 200' more needed and 20' more suction hose. 3 other spot fires near and of main burn, only 2 of which was located at night-at a parking area. Other must be found, 1 fire below road. A lot of work will be required to control edge of main fire using pump and at least 4000' hose. If the Otter Pt. fire is to be controlled Cooper suggests using Edward Gray as pump operator (familiar with dangerous slope and undertone). A good foreman will be needed and a rather large crew. Use Army decontamination trucks to get spot fire. Decision must be reached today re whether we want to attempt control of this sector. Some danger of flareup of spot if main fire worked on before spots controlled. Latter must be 100% mopped up. Can we spare foreman & crew?
- 3:30 a.m. Cook to Ellsworth: Gibbs will meet you on Craggy Road where trails intersect.
- 3:30 a.m. Cook to Savage: John Cooper is all in from his night and day's work. Keep him in bed till noon today if you can. He went to bed at 3 am.
- 4:20 a.m. Cook to Ruff: Berg requests you bring out a Pacific pumper, no hose. Thinks you will need about 8 men on Sector 1.
- 5:00 a.m. Cook to Savage: Our hose supply is again very low and a lot more will be needed to complete mop up unless we can get in some now not being used. 15,000' plus may be needed, I think, but a good check of all our stock might well be made by each Sector or Division Boss today.
- 5:30 a.m. Savage to Black: Please rush collection 1 1/2" hose that is distributed and not needed in its present location.
- 6:00 a.m. Cook to Coffman, Allen, Savage: I am inclined to think that we may need to get in more overhead, and soon. Everyone is getting worn out from too long hours. Particularly the Division Bosses. Think we should consider asking Region 2 for help, up to 10 more. Probably need most men with pumper and water use experience. Cooper says no more from USFS in SE Region but could probably from West. So can we. ACTION!
- 6:00 a.m. Savage to Foster, Sector A: 1 Pacific Marine pumper, 1000' hose (1 1/2"), 1 nozzle, 10 gallons gas mixed.
- 6:00 a.m. Distribution of ABE Hangers:
- | Sector | Needed | Leaving | Army | University of Maine |
|--------|--------|---------|------|---------------------|
| A      | 30     | 20      | 10   | 0                   |
| B      | 100    |         | 50   | 124                 |
| D      | 30     | 20      | 10   | 10                  |
| E      | 30     |         | 10   | 10                  |
| Total  | 190    |         | 80   | 150                 |
- 8:15 a.m. 8 men including foreman on Cadillac Mt. need food & water. Campbell needs a portable pump & 1500' hose or tank truck. Cook.

- 6:25 a.m. Savage to Moore: Please make contact with U. of Maine and Seminary at Bangor re/steady supply students or estimated supply.
- 7:00 a.m. Sector A: 1 pumper, 1000' hose, 1 nozzle, 10 gallons gas mixed; Sector B: 1 pumper, 1 nozzle, 1000' hose, 10 gallons gas mixed.
- 7:45 a.m. From O'Day: Tell Newcomb that O'Day has called for a P-500 to replace present Coast Guard pump. O'Day told Somerville not to remove their pumper unless replaced.
- 8:25 a.m. Phone to Region One. Allen to Cox: Asked to have 10 overhead requested to stand by with transportation arranged ready for dispatch. Also advised Richmond to find 3 pickups and 1 dump truck, new ones, if possible, for quick shipment here.
- 9:00 a.m. Sullivan wants 300' 1 1/2" hose at first hose crossing on highway. Ordered by Van Neelden.
- 9:00 a.m. Allen, Coffman, Hadley up Cadillac Mt. Returned 11:45 a.m. Savage.
- 9:15 a.m. Unofficial report that Pulaski tools earmarked for BH. Will be flown to Augusta to be dispatched from there.
- 9:25 a.m. Moore to Arnold: 3 overhead and 4 or 5 at Otter Creek, T-2. Main fire line active, 5 or 6 flaming spots over line advancing. Spot fire at tip advancing. Fred believes should work on this if force can be spared. At isolated fire, 6 boxes linen hose and few odd length. (3300' 1 1/2" & 2 length section). Need 500' addition at spot fire and 1 T. Main fire, no pumper equipment. Will need pumper, 3 section, 6000' hose, 3 Y's if available. Fish home road good pumper chance. Coming in. Arnold.
- 9:25 a.m. Accommodations available for Maine students: YMCA (Miss McNeil in charge): 12 steel cots, mattresses; 3 mattresses that can be used on floor, 10 more available for tonight, blankets, towels and bathing facilities; YMCA (Harold Williams, Secy.): 130 cots (canvas) with plenty of blankets, towels and bathing facilities (showers), Mr. Williams says some Army men there. Cannot say how many students he can care for because Army shifts their men around. First come first served. Will take care of all he can. Casino: 25 cots (canvas) with blankets available tonight, most of Casino occupied by National Guard. Don't know whether towels available, toilets and lavatories, few for all served, no baths. Parish House: (Telephone 540 or 389): 16 steel cots with mattresses, 12 more canvas cots, 37 stayed there last night, blankets available, no towels, no baths, 1 toilet and 1 lavatory. Note by J.C.
- 9:30 a.m. Talked to Spring and discussed pulling Lt. Sandberg and 10 men from Sector A. Spring agreed and will assemble men at T-3. Savage.
- 9:30 a.m. Ray Titcomb and 5 men, Maine students sent to Otter Pt. with 4000' hose to work on spot fires. Moore.
- 9:32 a.m. Savage. Talked with Fryman about pulling pump operator. Gray. Fryman agreed.
- 9:40 a.m. To Newcomb at Bubble Pond: 1 lb. grease, 1 gal. 30 oil.
- 9:41 a.m. USFS, Lasonia, ME. Talked with Bruce regarding headlights. He will truck them to Augusta and express from there.
- 9:50 a.m. Advised Newcomb that action should be taken on Otter Pt. Told him that 10 men had been dispatched from Sector A, and 1 pump operator and 3 students. Favour will remain there until relieved by a foreman.
- 10:15 a.m. Savage to Newcomb: Ringelder and Pilmer both reported that they had no water on Sector B from Otter Creek pumpers night of 27th.
- 10:30 a.m. T-5 Bubble Pond looking for Newcomb, fire burning on line near pump site.
- 10:35 a.m. Telephone call from Capt. Ellsberg: He has 1500' 1 1/2" hose that can be made available. Has requested 10,000' from Rockefeller and others through outside contacts.
- 10:50 a.m. Army booster pump from Eagle Crag is being moved. Can we have

a replacement, Ellsworth. It is our air cargo pump  
moved for maintenance. Reply: I'll try but cannot promise.  
Savage.

- 11:05 a.m. Mr. Ellsberg advised that 2 power saws, curr. w/operators  
are at our disposal.
- 11:10 a.m. Pumper started for Otter Point.
- 11:50 a.m. Edwards pumper is down and will be sent in for repairs.  
We will give immediate attention. If it can't be repaired  
wants replacement.
- 12:00 noon Visibility poor; ground fog to remain keeping visibility  
down to 1 mile for next 6 hours. Winds will be from southerly  
direction at 5-8 mph. These winds expected to stay for next  
6 hours.
- 12:10 p.m. Lt. Sayer call 5872. 2500 suction hose, strainer, gasoline,  
6-7 lengths available and on call for emergency. Moore.
- 12:32 p.m. Garage reports 4,000' 1 1/2" hose on hand. 1200' sent to Otter Pt.
- 12:55 p.m. 4 lengths of 1 1/2" hose forwarded to O'Day as requested.
- 1:00 p.m. Ask Newcomb how soon the Ford pumper from Searsville  
can be released.
- 1:14 p.m. Lt. Wright to 1st field phone: Coast Guard pumper in  
charge of Lt. Trotter is to stand by there.
- 1:20 p.m. Told pumper mechanic to give priority to repair of  
Edwards pumper from Sector A. Savage.
- 1:27 p.m. Spring. Getting along fine. Need food.
- 1:50 p.m. Pump dispatched to Otter Pt. This will make 3 pumps there.
- 2:00 p.m. Telephone conversation with Richmond. Vanderbilt can supply  
old equipment of 1 dump, 2 pickups and from Helen 1 pickup or  
new equipment by Thursday from Searsville, Mass. Prefer wait  
for new equipment. 6 men standing by at Yellowstone, 6 men  
standing by at Glacier, 3 men standing by at Jackson. Wash-  
ington Office would like to know probable cause.
- 2:05 p.m. 1 pump on carriage road Cadillac Mt. line can be released.  
Information on to Davis and he will pick it up at once.
- 2:25 p.m. Report on breakover fire Eagle Lake. Between lower carriage  
road and lake. 300' from carriage road. In a carriage road  
from parking lot on Bubble Pond. Fire is on western side of  
Eagle Lake. Augustus Phillips, SE Harbor. Discovered 2:25 .
- 2:41 p.m. Reported to Spring at T-3. Spring leaving to investigate with  
man reporting.
- 2:50 p.m. Ordered pumper and complete outfit to be made ready and loaded.
- 2:50 p.m. Spring. Fire west of lake will go to fire with crew.  
Have crew assemble at T-2 ready to take off.
- 3:00 p.m. Davis dispatched to Otter Pt. with pumper.
- 3:03 p.m. Ordered to load pump 1000' hose. Section hose nozzle  
and all men available and go to T-2. Black.
- 3:06 p.m. Left garage with 1 man with equipment. Black.
- 3:18 p.m. Reported at T-2. Black.
- 3:30 p.m. Col. Levan, BH: Shall personnel at Otter Creek, Sector B,  
return to BH area?
- 3:40 p.m. Frykman reported.
- 3:55 p.m. Cooper reporting: Spot fire, SE Eagle Lake corralled 3:30.  
1 1/2 acres, a breakover. Spring will move pump to breakover  
w/1000' hose from Douglas's truck. Nice job of control by  
students, 6 men on fire. Spring can handle.
- 4:00 p.m. Call SE Harbor Fire Co. Woodbury Standby Ass't Chief, Caddy  
Smith, Capt., Fire Chief Hodgkins.
- 4:00 p.m. Spring has gone to R. A. looking for radio truck. It is at  
Station 4. Allen.
- 4:05 p.m. Left T-2 for breakover. Black.

- 4:13 p.m. Approximately 8 chains line lost.
- 4:30 p.m. Phone from Region: Estimate fire cost needed. 3 Ford pickups, 1 ton, and 1 Ford stake, 1½ ton new. Will leave Leverville, Mass. Thursday and Purchase Order 70-87510.
- 4:37 p.m. Pumping water on fire. Black.
- 4:50 p.m. Leave fire. Black.
- 5:00 p.m. Can we get shoes for students at T-5, 20 students?
- 5:00 p.m. Winds SW at 7 mph. Can depend on it up to 7 pm. (SLS)
- 5:10 p.m. Headquarters. Black.
- 5:30 p.m. Arnold to Savage: This is to report that Lt. Sandberg and his detail of 10 men left the fire in this sector before relief arrived, on orders from Col. Loran. This occurred just as we got pumpup set up for operation. A local detail of 6 men has volunteered to help. I will have sufficient crew here but have not checked with Favour whether he will need relief on the Otter Cliffs fire. Probably should have a relief detail of 6 men and a foreman for that site.
- 5:30 p.m. Lights issued: Sector A, Campbell-12, Sector B, Gibbs-30, Sector C, Liles-5, Sector E, Berg-10; Total 60. Balance on hand: 72.
- 5:30 p.m. Principal Equipment: Fire rakes (342), bush hooks (204), 1½" pumpers (1), 1½" hose (3300'), back pumps (17), mattocks (120), axes (22), power saws (2). See Short for complete list.
- 6:30 p.m. Capt. Ellsberg reports that 7000' of 1½" hose will arrive tomorrow. I suggested that it be placed at Jonesville for later distribution. Cook.
- 7:45 p.m. Lieut. reported telephone at Aunt Betty Pond.
- 8:00 p.m. Mr. Allen wants estimate of cost not later than Nov. 5. Preliminary before they leave.
- 8:10 p.m. Ellsberg reports 5 men from Jonesville to report to Arnold at Otter Point within one hour.
- 8:10 p.m. Please swap the Pacific pupper coming in for the one in stock. Cook.
- 8:49 p.m. Special forecast at Dow Field. Generally overcast for 24 hours. Light precipitation beginning this area approximately 11 am continuing throughout till 6 am tomorrow. Wind SW becoming NW 10-15 mph increasing in velocity to 15-20 mph after 3 pm. Col. Statson.
- 9:00 p.m. Cook to Savage: John Cooper suggested the need for a tool sharpener for getting all tools in shape. Especially for council tools which require a special grinder. Ours are in pretty poor shape and will soon be worse. Will need to do a lot of reconditioning after fire so better get equipment and man now. Black: Please note and make arrangements. (SLS)
- 9:00 p.m. Sector A (20), Campbell; Sector B (30), Gibbs; Sector C (10), Liles; Sector E (10), Berg.
- 10:00 p.m. Dow Field sent 250 men to Jonesboro and Portland for fire fighting this morning. Moore.
- 10:00 p.m. University of Maine students returned by 2 stake trucks to Orono. Arrived 12:15. Drivers did not follow instructions and returned without load. Moore.
- 10:15 p.m. Cook to Fire Boss: Favour relieved by Gibbs at 9:30 p.m.
- 11:50 p.m. Arnold to Fire Boss: Bob Gibbs will not be on Eagles Crag tonight and will be on Otter Cliffs fire all night.

11:55 p.m. Fire Boss from Cooper: Recommend setting up 3 shifts as follows: (1) 5:00 am-1:00 pm, (2) 1:00 pm-9:00 pm, (3) 9:00 pm-5:00 am. No. 3 (the midnight swing) should be largely a patrol. This plan would give a maximum of daylight trenching time with fresh men. I do not consider it worthwhile to attempt to trench at night. This recommendation is made as a part of the "Log-Up Instructions." Continued: Please call National Park Service Headquarters, Fire Boss, and ask him to call John Spring at telephone 4 (Division Boss for lines 1 and 2) and inform him to pick up Fred Huff and crew at log pond near west side of Fire on State Road 138 (Sagle Lake RD.) between Bear Harbor and Samesville.

#### OCTOBER 29

1:30 a.m. Savage: Following arrangements made: 40 Seminary students arrived with Low Convoy Tuesday morning, Oct. 28. Contact with Mr. Marion Bradshaw and phone contact with Pres. Barry Trust indicated that Colonel Statson had made initial contact and request. The situation was explained to Mr. Trust and under the circumstances he agreed to provide a continuing supply up to 40 men for fire camping. This rotation will be continued until week end or fire is out. How will transport and feed the men. They will be bedded down in Bear Harbor. Approximately 150 students from U. of W. arrived on Island and reported to our lines at approximately 6 pm Oct. 27. The boys were dispatched to Sector B, near Bubble Pond and Sector E Sargent Mountain. Upon contacting students we found a Mr. Kendall in charge of the group. Students were organized in small groups with a forestry student in charge. A mobile radio van accompanied the group equipped with walkie talkie radio and limited portable telephone equipment. Students finished the day, bedded down at night and worked again next day. Contact was made with the college in an attempt to arrange for a fire camp of boys 100 by day and 50 by night. This was agreed upon after radio communication with the president of the university. Mr. Siddings coming as U. of W. liaison. Moore.

1:40 a.m. Release 1 pacific pumper to bearer for use on Otter Pt. Moore.

4:15 a.m. Samsone at Bubble Pond requested me to call Seal Harbor Fire Dept. for pumper equipment because several were broken down. Said wind was strong and pumping equipment needed soon. Called Seal Harbor and Chief will try to obtain Samesville pumper.

4:35 a.m. Seal Harbor reported no pumpers obtainable.

4:40 a.m. Bubble Pond reported 1 pump operating again.

6:45 a.m. High overcast. Lower broken. Vis. 15 miles. Winds 13 mph.

6:50 a.m. Savage relieves Cook as Fire Boss.

7:00 a.m. To 4:00 p.m. Cloudy, light rain. Winds NE 12-15 mph, diminishing.

7:00 a.m. NOTICE: All foremen on night shift will be at this office ready to go to the field at 5:45 pm. Savage.

7:25 a.m. A. Smith at Samesville called regarding U. of W. students.

7:50 a.m. 2 booster pumps at Otter Creek out.

8:00 a.m. Radley arranged for 3 busses to report to Mr. Ashman at U. of W. as soon as possible.

- to return with loads of students for fire control on park lines. Moore.
- 8:00 a.m. Savage to Douglas: Get serial no. of all our pumpers and stencil in red paint. (Given verbally).
- 8:15 a.m. Pickup truck with 8 men leaving U. office immediately for Jonesville. Mr. Grouett to work on fire line. Truck with 28 men will be dispatched as soon as possible to Jonesville. Advised Mr. Grouett. Moore.
- 8:17 a.m. Penetic Mt. fire reported by State Police.
- 8:22 a.m. Phoned to Spring.
- 8:26 a.m. Talked with Frykman.
- 8:28 a.m. T-5 running low on oil. Call Seal Harbor.
- 8:30 a.m. Call to Seal Harbor. 130 reporting, no pumper oil at T-5.
- 8:32 a.m. Report from J. Spring no burning near Penetic.
- 8:35 a.m. Chief suggests that we tighten down and insist on use of written messages.
- 8:40 a.m. No fire on Penetic. South Bubble is acting up well within burned area. Wind N 10-12 miles per hour.
- 8:41 a.m. Request from Chief Sleeper for Pulaski tools.
- 8:44 a.m. Informed Sleeper that 20 mattocks can be furnished.
- 8:45 a.m. Savage to Garage: Deliver to Chief Sleeper 20 mattocks.
- 8:50 a.m. Lt. Comdr. Gunn called for report on fire. Favorable.
- 9:04 a.m. Frykman checks in.
- 9:14 a.m. Saviour returning. There are other hot spots, S. Bubble. Eastern slope just north of center. N. Bubble N. peak. Sargent Mt. near junction of Sector A & B; 1/4 mile south of CCC Camp.
- 9:15 a.m. O'Day reports that pumpers on Eagles Crag are now operating full. 3 small boosters. O'Day informed me that he had instructions from Mr. Thomas that fire labor would be paid. Contact Mr. Thomas Seal Harbor.
- 9:15 a.m. Cooper to Fire Boss: Confirming my verbal suggestion to Mr. Cook (Fire Boss at the time) of 3:15 am Oct. 28: Suggest present supervisory personnel becoming exhausted from long hours; also intensive supervision is required to get productive work from inexperienced fire labor. Suggested 20 fresh experienced supervisory personnel be obtained at once from the Park Service - men of fire crew capacity. In addition you probably need at least 2 men of Division Boss capacity. I consider this recommendation urgent. R-8 (Southern Region) has critical fire conditions, extremely so in Texas, Ark., Okla. and Miss., and I do not believe is in position to furnish additional help, in fact some of us are thinly stretched there now. So the only USFS people I know of would have to come from the West, which are just as far as your Western Parks, therefore the recommendation to obtain Park Service men.
- 9:20 a.m. Cooper to Fire Boss: Sgt. Carpenter called from T-2 (Cad. Mt.) saying "they" wanted the Jeep pumper up on the Cadillac Road to boost that line.
- 9:25 a.m. Newcomb called for Jeep pumper for Otter Creek sector. Says he can release one Pacific Marine pumper if he get Jeep. Savage.
- 9:25 a.m. Seal Harbor reports that there were no men on line above pumper line T-5 this am.
- 9:43 a.m. Jeep pumper and operator driver to Otter Point.
- 9:55 a.m. Informed Newcomb of 9:25 am note.
- 10:00 a.m. See attached list of hard surfaced roads within or bordering fire. Phone call from Prof. Ashman. First bus load of 23

- men left E. of Me. 9:55 am for Jonesville report to Brunt.  
Second bus load of 40 will be dispatched shortly. Sailing-  
Ford should arrive shortly with 6 men in Beach Eagon. 5  
men in pickup enroute to Brunt. Giddings enroute EL Moore.
- 10:10 a.m. Cooper estimates that 6" rain will be required to extinguish  
fire. After 2" can reduce to token patrol.
- 10:15 a.m. Frykman called regarding 9:20 am call received by Cooper.  
Not necessary.
- 10:15 a.m. Mr. Alfred A. Siemer, JEFF. Edgtr. Eugene, Oregon on leave.
- 10:30 a.m. 14 Seminary boys on south end of Sector 3 without food or  
relief. By Mr. O'Day.
- 11:02 a.m. Cooper leaving for Sector 2. Will contact as convenient.  
Returning about 2:30 pm.
- 11:15 a.m. T-2 reports, telephone check, one half mile from bridge  
toward Otter Pt.
- 11:15 a.m. Message for Mr. Randall. Food for 37 men at T-5 by Sgt.  
Jones. Given to Lt. Farmer at 11:20. Savage.
- 11:25 a.m. Mr. Ellsberg: New York, rain, very hard evening 10/28.  
Rain in Boston 10/29 am. Can get up to 10 men. Is there  
anything else that we want. Mr. Ellsberg expects 10,000'  
of 1 1/2" hose which will be available.
- 11:33 a.m. T-2 is located at jeep pump.
- 11:45 a.m. Mr. Giddings from U. of Me. State will pay hourly wage.  
Our wage \$-.55. Giddings will keep time; University will  
submit bill as a whole.
- 11:55 a.m. With Newcomb will send 11 men from U. of Me. Asked about  
food for U. of Me. men on Bubble Pond.
- 12:00 Noon E. of Me. students: Sector A, T-3, 10; Sector B, T-4, 10;  
Sector 3, Otter Point, 20. Savage.
- 12:02 p.m. Regarding food for 37 men, Houston T-5.
- 1:00 p.m. See Map-Up instructions.
- 1:13 p.m. Larry Newcomb, sprinkling at Otter Point. Wants 10 gal.  
gasoline.
- 1:21 p.m. Advised garage of gas needs. Enroute immediately.
- 1:24 p.m. Raining at T-2.
- 1:28 p.m. Sprinkling at EL.
- 1:34 p.m. Robert Delevers, Supt. of Rockefeller estate and grounds  
called regarding food for men at Bubble Pond. General  
conversation.
- 2:00 p.m. Capt. Pratt to Col. Levan: No information available on  
pulaski tools. They have not arrived at Bow Field 261464 (RLS).
- 2:22 p.m. Started another bus, 22 men at 2:00 pm.
- 2:45 p.m. Cadillac St. road block. Littlefield at Telephone Co. reported.
- 2:50 p.m. 37 Harbor 7; Coast Guard Pumper Crew Bubble Pond has received  
orders and stopped pumping.
- 2:50 p.m. Douglas: Take pumper to Otter Point.
- 3:00 p.m. Frykman requests for 10-30-47 Bay on E. 20 men, 2 pumps  
and pump operators. 3 Seminary boys staying over.
- 3:45 p.m. Savage to Warehouse: Please deliver 1800' 1 1/2" cotton jacket  
rubber lined hose to Chief Sleeper.
- 3:55 p.m. Phone to Region by Allen: Pulaski tools not arrived. Region  
two and smoky men stay on stand by. Brief of fire situation.
- 4:15 p.m. Radio relayed from T-5 from Randall to Giddings. Men still  
working on line. Div. Boas Newcomb said to come down. New-  
comb would try to arrange for transport for men to Bar  
Harbor. Will see Giddings when I come in then. Sgt. Jones.
- 4:25 p.m. Siemer Reynolds will pick up U. of Me. students.

- 5:06 p.m. From Cooper: Sector 3, 10 men, 2 foremen; Sector 1, 12 men, 3 foremen. Spring.
- 5:15 p.m. Approved bringing park fire truck from Cadillac Mt. Rd. to Saraps. Message to Fryman and Reynolds.
- 5:25 p.m. Mr. Ashman called for Widdings.
- 7:00 p.m. Seal Harbor RD reports that Mr. Sanders and 15 men will stay all night on Bubble Pond sector. Cook.
- 7:50 p.m. Pres. of Bangor Theological Seminary called to request return of men. All have returned but 10.
- 8:00 p.m. To 12 WH: WH and vicinity skies overcast surface winds SE at 10 mph. (453)
- 8:25 p.m. Requested pass for Charles Stewart and family from National Guard Hdqrs. (Granted). Stewart, fire lookout on Gargant Mt.
- 8:30 p.m. Division 2 requests for October 30, day shift: Sector 3, 40 men and 3 foremen (Dum, Steuver, and Wright). Request that student Buck and his 9 HOF Me. students be included in the above 40 men. All men to be transported to I-4. Sector 1, 20 Seminary students and 10 U. of Me. students to be transported to the 3 assembly points on Sector 1. Spring.
- 8:33 p.m. Cook to Warehouse: Please furnish P.E. Johnson Hull's Cove 2 back pack pumps.
- Untimed: Phone to Washington by Allen: Coffman informed Director and Walker to date.
- Untimed: Following equipment ordered from Western Fire Equipment Co. by Hadley. Partly received this date: 24 1 1/2" nozzles, 24 1 1/2" siamese, 3 2 1/2 to 1 1/2, 6 2 1/2 dble m, 3 2 1/2 dble females, 6 1 1/2" dble females, 6 1 1/2 dble m, 3 2 1/2 x 1 1/2 x 1 1/2 shutoffs. Deliver over road to Camden Fire Station. He will pick it up. Have delivery man tell Camden Fire Station to take care of it.

## OCTOBER 30

- 5:45 a.m. Wind will be SW 12-15 mph precipitation will be small; light rain showers - rain and sky conditions will be the same as yesterday. 2/10" (0.3) rain yesterday; 6/10" (0.5) rain today.
- 6:00 a.m. Huff to Savage: Request 4500' 1 1/2" hose and 1 pump, pacific for 2. section of Sector 3 in charge of Steuver, to be delivered as soon as possible at Sector 3 command post 1 pr 3 1/2 shoon. Campbell reports 2500' and a pump on Sector 2. Spring will pick up 12 pair gloves, 6 pr. socks. Cook.
- 6:30 a.m. Savage relieves Cook as Fire Boss.
- 6:40 a.m. 6 back pack pumps to Chief Steuver.
- 6:42 a.m. Favour left to check spot reported near NW Jordan Pond.
- 6:43 a.m. Repair man to Otter Creek to work on telephone line.
- 6:45 a.m. Savage to Warehouse: Deliver to Chief Steuver 6 back pack pumps.
- 7:15 a.m. Cooper to Fire Boss: Recommendation: 1. That unburned green spruce type within the fire boundary be mapped immediately. 2. Reason: Flare ups will continue and in case such flare ups are within or immediately adjacent to green spruce we will stand the danger of a crown fire, and therefore immediate action will be indicated. Of course, green spruce adjacent to the line is the most dangerous in this respect, but sizable patches of such areas even 1/2 mile inside may be hazardous with high winds.

- 7:22 a.m. Favour reporting to me that Flare up NE of Jordan Pond is inside. Foster told him that duff was burning.
- 7:30 a.m. Cooper to Savage: A large percent of WPS vehicles carry no fire tools. All these vehicles do considerable travel and may at any time discover a breakover. Recommendation: That all WPS vehicles carry enough tools for 6 men at least, varying with type of vehicles: 1 back pack pump w/water to be refilled when used. 1 attack or more if available. 2 council tools (handles may be cut if necessary to load in trunks of passenger cars). 1 axe or shovel. (10:05 an order phoned to Douglas and he will act.)
- 7:30 a.m. Favour to Beech Mt. w/lookout and will return about 9:30. Will call when he opens the cabin.
- 7:40 a.m. Moore to Douglas or Shopman: Release 4500' of 1 1/2" hose to driver for delivery to Division Boas Spring at Sector 2 Sargent Mt.
- 7:40 a.m. Moore to Schreiber: Please release pumper and accessories for pumper to driver for Sector 2. These are per instructions from Spring.
- 8:30 a.m. Arnold to Fire Boss: If fire truck is now available such growth which it would be desirable to save along highways and carriage roads could be saved if recommendation 3 in the mop-up instructions could be given a higher priority and started at once.
- 8:15 a.m. Report from Wapser of houses endangered.
- 8:20 a.m. Moore: Report from National Guard. Snags on fire on Mt. Ed. Entire burn toward Cadillac.
- 8:26 a.m. Regarding hose for Spring. Fryman reporting can release about 2500'. Will be through w/water on upper road in 1 hr.
- 8:30 a.m. Above acted on. Spring says the dividing line between Sectors A and B is the carriage road on the east side of Sargent Mt. Arnold.
- 8:33 a.m. Newcomb will take 16 men and Sup. from Seal Harbor to Bubble Pond. Should plan on relief for tonight. Possibility of reducing Sector 2 and 3 to 1 and assigning only 20 men. Possibly 6 on pt. 5, NE Cadillac, 10 S of Cadillac, Gibbs and 4 foreman.
- 9:05 a.m. Saunders reported that he left Bubble Pond before relief.
- 9:10 a.m. Col. Stetson to Col. Smith: Very anxious to return fire fighters this pm. Mess, motor pool and communications may stay. Contact Mr. Savage for his concurrence.
- 9:28 a.m. Favour reporting from Beech Mt. Checked azimuth, 2 pts. Reporting 27° 30' near 100' contour and azimuth crossing.
- 9:35 a.m. Smith has line that has to be burned out. Need backfire equipment. Cooper thinks that SE has backfiring equipment. Calling from schoolhouse. Send torch to Somersville school house. Somersville deliver to Maraden to White, White to Smith.
- 9:50 a.m. Favour leaving Beech Mt.
- 10:00 a.m. Hadley and Moore: Gibbs informed us of a rumor that water must be boiled. Can we get Bazeltone tablets from Air Forces? WLD. State will stop use of water if necessary. RM checked on. ON 10:00 am. RM.
- 10:15 a.m. Cooper to Fire Boss: At this time we have approximately 500' 1 1/2" hose; 1 air cooled "Z" pumper; and 1 pacific marine pumper. If the above hose is dispatched or more needed, Fryman can pull up 2000'. He doesn't want to take time to pull or roll up the 5000' we now have in reserve as he may use it later on secondary mopup.

- 10:30 a.m. Spring to Fire Boss: In returning the 4500' of hose. It was not tied and I don't have time to tie and straighten it out. Will contact you later. Refer to Moore's message. 7:40a.m.
- 10:30 a.m. Newcomb. Civ. crew Bubble Pond need pumper. Gas tank, line, plenty of hose on hand.
- 10:34 a.m. Pump dispatched from garage by Douglas.
- 10:35 a.m. Fryman through with Army pumper and operator at I-2.
- 10:45 a.m. To All Division Bosses from Fire Boss: We are running into difficulties with a shortage of fuel cans for hauling gasoline. Our gasoline distributor reports trouble in getting fuel and from pumps off the road back out to the road. All of you are requested to keep this problem in mind and lend every possible cooperation in getting the cans back to the road. You may leave empty cans on road without a guard and if you want additional fuel leave a note to this effect on the road and the driver will leave you a full can of fuel at that location. However, you should attempt to anticipate fuel needs and get requests in to Hdqtrs. well in advance. Use of notes described above may get you gas only incidental to fuel distributor's travel and should not be relied on.
- 11:45 a.m. Pumper arrived south Bubble Pond as requested. I-5 south.
- 11:55 a.m. Informed Douglas that Chrysler trailer pumper did not need to be on standby.
- 11:45 a.m. Sargent, Ellsworth, reported 2 trucks hired, one w/canvas cover, 1 w/van body with seats arranged on each side. Trucks will report Hdqtrs middle of afternoon. D. L. Hadley.
- 11:50 a.m. Arnold in, reports Otter Pt. quiet and black except for small smoke on large spot fire still. Sargent Ht. sector quiet. Several small fires on Bubble and near Eagle Lake well inside. 1 glow on SE side of Cadillac Mt.
- 12:04 p.m. Paul Favour returned from Beach Mt.
- 12:10 p.m. Lyle Smith would like hose for Conesville. Request filed but not honored. Referred him to Smith and Renshaw.
- 12:14 p.m. Mr. Hinchley reported spots vicinity of Thunder Hole, north of fire line.
- 12:30 p.m. Mr. Deairs, Red Cross, County Disaster Chairman, Shore Club 340. Mr. Rowlen, Mr. King. Mr. Swigert. Call any of the last three at the Shore Club.
- 12:44 p.m. John Spring. Just finished examination of line. No pumper needed. Pumper, nozzle and Y and suction hose will be left at I-6. Estimate 20 men.
- 12:50 p.m. Savage to Favour: As of this date & time you are assigned to assist R.L. Moore on necessary dispatching activity at Park Hdqtrs.
- 12:54 p.m. Foster wants 1000' hose at Deer Brook Bridge.
- 1:13 p.m. Spring, Steuver will be released to Newcomb and picked up at I-2.
- 1:15 p.m. To Davis: Pickup Steuver at I-2 and take him to Otter Pt. to report to Hall.
- 1:16 p.m. I-2: Have Steuver call Hdqtrs. as soon as he arrives.
- 1:17 p.m. To Davis: Fire truck to Otter Pt.
- 1:19 p.m. Cook relieves Savage as Fire Boss.
- 1:24 p.m. Steuver reported in at I-3. Going over to Otter Pt. to report to Hall.
- 1:26 p.m. Steuver reports to Hall at Otter Pt. 1:17 when he calls in. Cook.
- 1:30 p.m. Allen, Coffman, Cooper, Arnold, Hadley and Savage to Conesville School to meet Renshaw & Smith for survey of line.

- 1:45 p.m. Wind 12-16 from ENE light rain showers.
- 1:50 p.m. Commander Gunn in to offer assistance in obtaining cold weather gear. Not much available but glad to help.
- 1:55 p.m. To Davis 1000' of 1½" hose to Foster. Savage.
- 2:15 p.m. Mr. Drury called and I reported conditions. LFC.
- 2:30 p.m. Move to Fire Base: Total of 30 men dispatched from V. of Me. approx. 2 pm enroute to Park Hdqtrs. Bar Harbor for detail on fire crews.
- 2:35 p.m. Mr. Gustafson: USFS Fire Control called re/release of 3 men.
- 2:35 p.m. Fire reported by National Guard 1½ miles above Cadillac Mt. Rd. and Eagle Lake Rd.
- 2:40 p.m. Checked by State Police Radio Car. No fire found.
- 3:00 p.m. Frykman going to check on reported fire.
- 3:00 p.m. William MacFarland driver of green van truck from Mt. Moore, Ellsworth.
- 3:05 p.m. Com. 1 to Supt. Leadia ME from Moore: Pending reply my 3017132 suggest for interim use contact Red Cross Service since information received Naval Base Portsmouth furnished Bar Harbor Red Cross approximately 500 p coats and some heavy submarine coats. (U.S. Naval Radio, Inter Harbor)
- 4:00 p.m. Regional Warren, Ellsworth Falls 1½ ton Dodge. Cook. Arrived at 4 pm requested by S. L. Radley.
- 4:00 p.m. Col. Smith reports Col. Stetson wants men in to be paid tomorrow and replace with others at noon, or make other arrangements.
- 4:15 p.m. Supt. of Schools Tuck reported that he has returned to ME. Will be at Selectmen's Office.
- 4:35 p.m. Acting Regional Director Cox called re Ralph Emerson coming to ME. Request Allen call him tonight.
- 4:40 p.m. Cook to Red Cross Hdqtrs. ME Harbor: The bearer, Mr. Atwood, will pick up the 24 prs. heavy underwear suits, 50 dungaree shirts, as arranged with Mr. Small. Thanks.
- 4:50 p.m. Hall, Otter Point, requested a pump for replacement.
- 5:00 p.m. 50 Army men dispatched. 30 to B and D, 20 to A and E.
- 6:00 p.m. Sleeper, Chief USFS relayed report from Town Hill of fire on Penatic Mt.
- 6:00 p.m. Night duty: Sector A, Campbell (10), T-5; Sector B, Gibbs (19), T-2 (Otter Pt. and Bubble Pond, T-5) & from Bunkerville to come in (Gibbs left 5:05 am to pick men up); Sector D, Van Heelden (5), T-2; Sector E, Borg and Filmer 10, T-4.
- 6:05 p.m. T-3 reports small crown fire at the Bubbles.
- 6:55 p.m. T-4, Sector E does not need lunch tonight.
- 7:05 p.m. Small is at Backport enroute with 3 trucks to park tonight. Letters of commendation to be written to: A. L. Abbott, Jr., Maint. Supt. MEH., ME Harbor. Mrs. Susan Ward, ME Harbor (especially her pies). T. B. Spaulk, telephone operator and dispatcher. Mr. Thomas, Town Manager, ME Harbor. Mr. Augusta Phillips, ME Harbor reported breakover at Eagle Lake. Release all USFS men Saturday morning. Renshaw said "In all my years of fire fighting (1910 Idaho fires) I have never seen a harder mopup job."
- 8:30 p.m. 3 pickup trucks arrived driven by Supt. Small, Laborer Boyle and Custodian Corey from Adams Mansion MEH. Supt. Small in charge. Boyle from Salem Maritime MEH.

8:30 p.m. Cloudy with surface winds to 15 mph SSE no change.  
 9:00 p.m. Day schedule for 10/31, A-2, P-20, P-3, and B-60 all U. of Va. Students until 10 am when Army replacements due to arrive from Bow Field.  
 10:30 p.m. Furnished 2 back pumps to Chief Walepor. Telegram to USFS Washington advising that all Region 8 forest service men would be released Saturday am.  
 Untimed: Hadley from Cook: Mr. Ballard of Harbor called to ask that you put in a word for him to get a permit to cover the Island (National Guard traveler). Requests you call him if you have any luck.  
 Untimed: Cook to Savage: Try to arrange for plane transportation for all USFS men to Atlanta Saturday morning. Hadley send wire to USFS Washington.  
 Untimed: Moore to Supervisory: Clothing, shoes, gloves, socks, sweaters, etc. available at clothing supply in carpentry shop. Check with E. B. Moore or Paul Farver for your needs.  
 Untimed: Allen to Savage: Have Nowack learn plane schedules and arrange reservations as needed.  
 Untimed: (Refer to 10/30/47 letter to Red Cross Supply Officer by Gilbur L. Savage.)

### OCTOBER 31

1:40 a.m. Seal Harbor pumper on Eagle Lake shut down. Men wet and cold. Blackout. Reported to SHED.  
 3:35 a.m. Elmer Richard: Otter Creek reports fire on east side of Otter Creek opposite village near Davis house. Gibbs left to investigate.  
 4:30 a.m. Gibbs reported fire was foundation of old building inside burning flared up. All OK.  
 5:44 a.m. Ceiling 3600'. Overcast, visibility 15 miles. Temp 43 Bow Point 35 Wind SSE 13 mph.  
 5:15 a.m. Partly cloudy. Sometimes solid overcast wind, SSE 20-25 mph changing later on to SHW. No rain in sight Temp. 40 visibility good 15 miles.  
 6:15 a.m. Savage relieved Cook as Fire Boss.  
 6:18 a.m. Newcomb requests jeep pumper for Otter Point.  
 6:21 a.m. Jeep pumper to Otter Point.  
 6:29 a.m. Stake truck ordered for Fryman to Cadillac Mt. (Reynolds answered).  
 6:30 a.m. Pump truck ordered for Otter Point. (Reynolds answered).  
 6:45 a.m. Cooper leaving for Cadillac. Walking line toward Otter Creek. Should call not later than 2 pm.  
 7:10 a.m. Van Heelden called from P-2; requested gas for Chrysler pumps on Easter Shore Eagle Lake, reported none on hand. Black called to dispatch 15 gal. immediately and 15 for night pumping.  
 7:12 a.m. Smoke south of Miller Gardens on Ocean Drive. Black reporting from telephone station Conners Mubble progressing toward "Torn Pants" corner.  
 7:13 a.m. Division 1, Sector 3: by JJC. 1. 2 mi. s. Cadillac post burning right up to line under top on S side. Thin strip green spruce and fir on over top. Need 2 back pumps and 2 cutbacks short trench. Some clean rock on top across front of this fire. 2. Black alder (?) thicket needs to be brushed out to facilitate patrol. 3. Small post burn on edge; some clean rock ahead; night finger across; no

rush. 4. 10' finger on top Rocky Ledge just North of Gap. No fire but watch. 5. Bad burning peat under unburned patch leaves right on edge of line at base of rock bluff north of gap. quick attention. has trench around this. Reported to Prentice. 6. 100 yds south of gap on west of crest smoldering peat on edge but has clear rock ledge across it, only very slight chance of fingerling across. 7. 3/8 mi. south of gap considerable fire on line which was originally stopped by rock E of top. No danger w/light wind could blow to unburned patches thence on over top (300 yds). Rear end of hose (no water). 8. on w side crest 1/3 mi around line from top and about 1/2 mi s of gap burning patch next to clean rock ledge, 100' across; 3 mi wind no rush. 9. On w of crest near base of steep, rock bluff approximately 1/2 mi from top slight peat smoke 50' inside, no rush. Met Rissett at 8:45 a.m. at 10 above. He is U. of Ms. student working up from Otter Creek. 10. Top of Rock Slide across line in peat, 4 mi. wind. Used 3 gal. BP to stop this, was flaming and w/in 2' of green spruce limit on ground. Left note to trench. Reported to foreman. 11. Spr pole flat cove has one spot, sarvis alder and related bushes where line should be brushed out, (no smoke seen), to help patrol. Contact Sullivan "B" end of Eagle Crag. Had 2 75 pumpers at one place (one may be in need of repairs) 12. To NE of Eagle Crag between foot of bluff relay pump down to Cedar Bog of swamp should be trrenched (partly done 10%) to protect Otter Creek village. 13. Recommend O'Ray patrol at least once a day down East side of Otter Creek. Received by Savage 6:30 pm 10/31/47.

- 7:30 a.m. Howcomb reports jeep out of order.  
 7:32 a.m. Talked w/Howcomb at Riv. I F-2. He will arrange for needs on Sector 3.  
 7:57 a.m. Contacted Fred Blanchard at Homesville Schoolhouse to get portable kerosene stove to Beach Mt. Lookout. Contacted Col. Smith to get sheepskin lined flying suit for lookout.  
 8:00 a.m. Howcomb reported backfire out on Otter Pt.  
 8:30 a.m. 10:30 a.m. Ben Emiley will take Small and party far view of fire then return to office.  
 8:48 a.m. Johnson requested 2 mattocks to go out to F-6. Dispatched message to Davis at garage.  
 9:00 a.m. Priority of motor roads in or adjacent to park needing mowup. Ocean Drive including Otter Pt. Eagle Lake Rd., corner cleft stone Rd. to Young's District. Cadillac Summit Rd., Lower Mt. Rd. Echo Mt. Rd. through Rte 3 underpass to Schooner Head Road, including Sieur de Monts Spring area. Schooner Rd. Rd. Rte 3 from Morrel Park south to jct with Otter Pt. Rd.  
 9:05 a.m. Requested Frykman to call in to Hqtr. Last took call.  
 9:15 a.m. Spring checked line on Bubbles. Good. Smoke-White Cedar Springs. If there is a hitch in feeding arrangements call Mr. Spunk at F-4 and inform him by 10 am. Mr. Spunk will check with Davis at 10 regarding food.  
 9:25 a.m. Ben, please call Austin at Bangor Hydro electric.  
 9:40 a.m. Telephoned Ralph Douglas on priority roads. He is starting a crew immediately.  
 9:45 a.m. Cooper to Fire Boss, relayed by Rissett: Just met Prentice's E. office. crew, Sector 3, 1/2 mi. s of gap. Reporting a few hot spots on 3 direct to them. Worst spots on 4 are:

2 mi south of Cadillac, peat burning on edge of line on east side of ridge with 15-20 mi wind on it. Thin fuel once top with scattered spruce and spruce fir. Some clear rocks on top across front of this fire. Approximately 3/4 mi s of Cadillac is small shoulder on line that could finger across but does not appear a rush job. 15-20 mile wind there. Also some clear rocks ahead. Hottest spot so far on Section 2 is in gap at trail intersection. Base there now but not men. This is the Bubble Pond hose line. Command crew has Masters taking action to get water to this gap now. There is a booster pump on hose line. Condition not known and fuel lacking.

- 9:45 a.m. Turn Points corner smoking. 3 separate spots on C. Ridge west of Eagle Lake below CCC Camp smoking by Ben Badley. Upper Breakneck Pond. Bubbles, Otter Cove, Trees on Cadillac Mt. covered with ice.
- 10:20 a.m. Corp. Williams reported that telephone crew will be beyond Otter Creek if needed call 7-2.
- 10:30 a.m. Capt. Ellsberg by telephone. If H. office students are withdrawn from C, he can replace them with local employees.

#### NOVEMBER 3

12:30 a.m. Food requested and sent to A and B.

12:30 a.m. Wright authorized to return to Colonial today.

2:00 a.m. Cook to Savage: Suggest we use only a 3-4 man mobile patrol tonight. Have men call in rather often from each telephone as they pass it. Carry a midnight lunch to field with them or come into town for it. Believe you should notify Thomas, Woods and Richardson that they can reduce their quota requirements tomorrow perhaps 1/2 or more. Think you should start sending our overhead home tomorrow. I suggest we let the AA7 go home today if the following conditions are met: No flareups observed today before 3 pm. Satisfactory massing facilities for overhead in town or developed here. Communication left intact for remainder of week we can maintain. Sleeper has no recommendation re their retention for possible use in town. In any event I think we should reduce the number to be sent out tonight at least half.

- 4:00 a.m. Candage: Seal Harbor FD reported blaze on Eagle Crag. Could not raise anyone who could see it.
- 4:25 a.m. Prentice at T-4 reports fires in sector stone cold. No fire.
- 5:35 a.m. Savage and Arnold leaving to scout Sectors A and B. Atwood can meet them at end of Sector B on Eagle Lake Road. Send truck out on carriage road Sector A work on Parking Overlook. Moore, fire boss.
- 6:15 a.m. Ralph Douglas phoned Ernest Hopkins and 3 others to work at garage as soon as they could get here. National Guard notified to pass them through.
- 6:20 a.m. Gibbs left for Gorge to work on island of unburned fire. Taking pumper and hose to clean it out.
- 6:25 a.m. Douglas getting Coast Guard to work on CCC Camp project with Johnson at least till noon. At that time if another pump is needed can send out one of ours.
- 6:35 a.m. Bill Campbell asked to have Colson and Ellis. 2 others to report to park office as soon as possible to work under Pete Johnson in mopping up CCC Area. (Favour).
- 7:20 a.m. Orr Thompson starting patrol on Cadillac Mt.
- 7:30 a.m. Request through State Police for Seal Harbor spray tank and pump for use on Cadillac Mt. Seal Harbor called for other arrangements.
- 7:50 a.m. Seal Harbor M'd request. Will send as soon as possible.
- 7:55 a.m. Send dump to CCC Camp to help move hose. Dump on way at 8:05 am.
- 8:25 a.m. Savage and Arnold at T-4: Found and put out 2 smokes. Have them picked up at 11 am at junction Sector B line and Eagle Lake Road.
- 8:41 a.m. Telephone T-6 moved back on carriage road one fourth mile to north. Junction carriage road and fire line.
- 10:02 a.m. Orr Thompson reported in. Found a ground fire burning about 500' east of Eagle Lake and 100' north of burned edge. Will work on it.
- 10:15 a.m. Gibbs going to Otter Pt. Taking tank truck to Cadillac to run water by hose to spots below crest. Will check Otter Pt. for use of Chrysler pump. Taking hose off Cadillac per Moore's M.
- 10:30 a.m. Moore to Lt. Walters: We are turning loose Sector D from Cadillac Mt. Summit at turnaround north down the summit road to the mountain road and thence to Eagle Lake shore for equipment reconnaissance and pickup except all hose found on the line should be left in place. Please contact Ranger McCown on the Summit and Ranger Thompson on patrol when pickup crew start work.
- 10:55 a.m. Message via State Police from McCown-Cadillac Mt. Need as much garden hose as available up to 1000' also water carrier to keep sprayer supplied. Sprayer on top but broken down.
- 10:55 a.m. Lyle Smith from Jonesville Sector in check on equipment. Needs supply hand tools. M'd release to him as of his needs. He says quite a bit of fire along his line. They have pumper and hose in place for use in emergency.
- 11:00 a.m. Called shop on McCown's needs on Cadillac.
- 11:25 a.m. Bill Savage, T-4 urgent: Will be in about 12:20 pm. Furnished Smith back pack (Indian) pump from our warehouses.
- 11:30 a.m. McCown called. Can use 50' hose and please make arrangements to shuttle water to sprayer.
- 12:13 p.m. Lookout Stewart reports smoke coming from gorge between Cad. and Borr (McCown's area of operation) azimuth of 63°.

Also Long Heath area still burning; light smoke haze occasionally visible from Norwood. Some smoke from Aunt Betty Pond area.

 8:57 a.m. Gibbs from Otter Creek: Would like transportation in. Arranged w/Douglas.  
 9:20 a.m. Paul Favour from Sargent checked smoke on Eagle Lake. It is inside burn.  
 9:30 a.m. Lt. Cdr. Anderson, Navy through Wed. night. Mr. Thomas: Otter Creek 2000 2 1/2 Seal Harbor 2000 2 1/2.  
 10:05 a.m. Sargent Mt. Long Heath. 327°. Faint smoke 230. Smoke 230. Smoke CCC Camp. 44°. Faint smoke. Light SW wind.  
 10:13 a.m. Sgt. checking T-4.  
 10:18 a.m. Sgt. Mt. Lookout going to top.  
 10:30 a.m. Mr. Bartholomew and party arrived at office.  
 10:31 a.m. Sargent Mt. Lookout returns to tower.  
 10:48 a.m. Bob Moore from T-4: It would help if Johnson could have 2 or 3 more men.  
 11:06 a.m. Sargent Mt. 320° inside in back of Old Jones Tracy Place. Sargent Mt. and Kitteridge Pond. Some on Eagle Lake, east side the same.  
 11:37 a.m. Fred: Eagle Lake smoke, 500° inside uphill about 130° from carriage road.

- 11:50 a.m. Savage to Hodgkins: Please help Orre Thompson with a fire on the east side of Eagle Lake.
- 11:54 a.m. Reported same on Eagle Lake to Orre Thompson w/note to Hodgkins on fire truck to help.
- 11:55 a.m. Paul Favour reporting from T-6.
- 11:58 a.m. Sargent Mt. 2 smokes on Richardson Brook. Will check w/side of Island.
- 12:00 noon SEC Camp spot 41 complete tonight. SW passage 7-10 acres unburned; Fern spring spot top of S. Bubble 1 acre-spruce; top of N. Bubble 1 spot; above carriage road .2 mile north of fire line spot (stump); carriage road south of Asmt Betty Pond, several small spots along road; SE slope Cadillac several spots east slope near bottom gorge 6-7 spots - noted by Moore.
- 12:26 p.m. Sargent Mt. all clear on west side of island. Small smoke near Fern spr. Campbell will get it from T-4.
- 12:44 p.m. Cook relieves Savage.
- 1:15 p.m. Sargent Mt. reports all quiet on west side of Island.
- 1:40 p.m. Moore on duty.
- 1:50 p.m. Doudna, reporting. Made one round over line from lookout on Sargent to Eagle Lake Road near Log Pond. No smokes. Will make another round this pm. Smoke below Fern Spring. Old Stump. Doudna, Campbell worked on it, tore it apart, no danger.
- 2:00 p.m. Otter Creek Fire Co. called inquiring about authority for Navy to pick up hose and equipment. Advised not to release any equipment without note of authority from Savage.
- 2:05 p.m. Sargent Mt. Lookout. Hot spot on Sector A, just east of Sargent Mt. near Spring near edge of Tumbledown. Other than that things look pretty good. Serg's crew on hot spot.
- 2:40 p.m. Thompson reports spot along Eagle Lake carriage road cooled down. Probably out. Will check again this evening.
- 2:45 p.m. Beech Mt. Lookout (Salt). Everything looks OK. Slight smoke in the vicinity of Long Heath.
- 2:48 p.m. Sargent Mt. Lookout. Fires gradually diminished. Wind up 5-10 miles from SE. Quieting down again. Fires getting quieter.
- 2:50 p.m. Moore to Hadley: Mr. Cowell, Hulls Cove called. An Army pumpier assisting in control of fires at Hulls Cove borrowed a ladder from Mr. Cowell. He would like to get it back if possible. Told him I would give you the message.
- 3:30 p.m. Seal Harbor recommends fire in SE Pass be handled.
- 3:40 p.m. Mr. DeRevere adds comment and suggests use of his crew.
- 3:55 p.m. Call from Chief, Seal Harbor FD regarding control. Was in to investigate.
- 4:00 p.m. Arnold to Fire Boss: I have checked the fire line, Sector A, from the burning turnout at Deer Brook to Eagle Lake. Only one smoke was observed on the entire line other than at the turnout. Dunn and one man mopped up that smoke while I was present. It was 100' in from the line. I would recommend the line underlined above be shown as blacked out and that it be assigned to Jesse Atwood for patrol twice daily until rain. He should be instructed to follow the fire edge wherever it does not follow the trail.
- 4:00 p.m. Cook to Savage: DeRevere called re the unburned area near SE Pass near Tumbledown Rd. Says he has 500 men he could assign and suggests use Cadillac crew, sprayer over there tomorrow.

4:02 p.m. Beech Mt. Lookout reports all quiet.  
 4:15 p.m. Phone to Region: Notified of release of men; Air Corps released.  
 4:50 p.m. Savage to Major Caray: We have pronounced the spot fire on Otter Pt. as blackout and here, hand tools may be collected. Please contact Mr. Gibbs.  
 5:10 p.m. Hagerty on night patrol in place of Williamson.  
 5:20 p.m. Cook to Caray: Please furnish Schreiber 1 pickup for night patrol tonight.  
 6:08 p.m. Coast Guard will substitute a Chrysler trailer for the Chrysler mounted on a truck. They will leave for I-5 at 7 am.  
 8:35 p.m. Favour reports gates locked at Eagle Lake and Brown Mt.  
 9:25 p.m. Sanders I-4 says all OK. Fire in SW Pass still smoldering. He says NW Harbor people concerned about that fire. He will open gates at about 5 am.  
 9:35 p.m. Schreiber called from I-4. Both he and Sanders covering. Told Sanders to take Division I (Sectors 3 and 3). Both Sanders and Schreiber told to unlock gate at 5 am so cross going to work can get in.  
 Continued: Carriage Road Entrances: \*Brown Mt. Pass, Brown Mt. Gatehouse, West Bracy Cove (on hill), Long Pond, near cemetery, Jordan Pond, Jordan Pond gate, west, Jordan Pond gate, east, \*Boyd Road, Bubble Pond, Eagle Lake, New Eagle's Lake and Mills Cove. Underlined gates to be opened by us during day and closed by us at night. \*No gates, barriers removed. (Favour).

#### NOVEMBER 5

12:35 a.m. Schreiber at I-4 reports all OK. Fires died down.  
 6:00 a.m. Savage relieves Cook.  
 6:15 a.m. Call to Campbell (got him out of bed).  
 6:20 a.m. Savage to Moore: Please go to the field. Locate the pickup trucks and redistribute them. If you are unable to locate others take two from the Division Busses and let them find others from their Sector Busses.  
 6:25 a.m. Sargent Mt. 4 small smokes well within burn. NE of Eagle Lake. 37° 30'. Wind SE. Better indications for rain than for several weeks.  
 6:31 a.m. General observation; will call when he returns. Hadley.  
 6:35 a.m. Report from Beech Mt. Lookout Stewart: Heaviest smoke from Long Heath area, azimuth 43°, slight smoke southern side of Salesback, azimuth 26° (5 miles away). Wind 20-25 MPH.  
 6:45 a.m. P. Johnson, only 2 men this am.  
 7:40 a.m. U. Campbell has delivered two men to P. Johnson.  
 7:45 a.m. Hall reports blistered heel, requiring medical attention. Appointment made for him to see Dr. R. E. Weymouth at 9:00 am.  
 7:59 a.m. Sargent Mt. wind NNE. Clouds gathering, still chance of rain. Smoke less than at early report.  
 8:30 a.m. Boudna reported in from Sargent Lookout. All quiet.  
 8:40 a.m. Fire Chief Coal Harbor. Navy pump operators are eating and will be taken out in about 15 minutes.  
 8:44 a.m. Ralph Douglas will check Chrysler.  
 9:25 a.m. Gibbs from I-55: Spare pumper and 2 Navy operators heading for Eagle Lake (probably SW Pass inside fire). To be at HQ 10:30-11.

9:37 a.m. 2 Coast Guard pump operators leaving F-4 E to stand by at Seal Harbor. Fire Station. OK'd by Gibbs.

9:45 a.m. 2<sup>nd</sup> hose lying in NE shoreline of Eagle Lake sector to be picked up by Douglas to supply fire truck. Ordered by Favour.

10:00 a.m. Atwood dispatched to pick up Volpe, Navy man at Seal Harbor. Fire station. Thence to SW Harbor to pick up suction hose and fittings, at SW Harbor, C.C. Station. Thence to SW Pass. Requested by Gibbs at 9:35 a.m.

10:30 a.m. Lt. Trotter (Navy) for weather call Sw 7 at 12:30 (Coast Guard).

10:40 a.m. Eastport to Block Island: Diminishing northerly wind becoming variable tonight and Thursday considerable cloudiness but good visibility some change and a few sprinkles of rain Thursday.

11:42 a.m. Sargent Mt. Lookout reports thin smoke coming from near base of Sargent Mt. azimuth between 315° and 325°.

12:10 p.m. Cook relieves Savage.

12:10 p.m. Sargent Mt. reports smoke at 130° through notch in McFarland Mt.

12:30 p.m. Signed for 2 P-500 pumps from U.S. Navy (Lt. Trotter) to be returned to Portsmouth Navy Yard.

1:15 p.m. Coast Guard Pumping men. Bubble Pond standing by. (Advise Gibbs).

1:45 p.m. Send park fire truck with Arre Thompson to put out fire on switchback on Mt. Rd. 2 garage men going.

2:45 p.m. Park fire truck returned and sent to CCC Camp at Johnson's request.

2:50 p.m. Seal Harbor FD wants to know where to pick up men tonight.

3:57 p.m. Claudia F-4 reports no smoke found.

3:21 p.m. Bob Moore to SW Pass.

4:00 p.m. Sargent Mt. reports all smokes small, wind 10 mph NE.

4:20 p.m. Moore reported no Seal Harbor men at SW Pass. He is coming in now.

4:21 p.m. Atwood reports all cold, Jordan Pond to Eagle Lake.

4:25 p.m. Called Seal Harbor FD to send truck to top of Cadillac Mt. for men tonight.

4:25 p.m. Cook to Savage: Campbell, through Moore, says he will need only 10 men tomorrow from NE. Suggests you call NE from here rather than having the field crew advise. NE men reluctant to go so far from home. (Telephone request).

4:30 p.m. The following men will be released 11/6/47. Please see Kowack this evening arrange your transportation: Dunn, Benton, Sanders, Schreiber, Hall, Johnson, P., Liles, Campbell. Savage.

4:35 p.m. Sargent Mt. wind 5 mph E NE.

5:30 p.m. Telephoned NE. Talked to Taylor. Requested 10 men for duty tomorrow.

5:40 p.m. Telephoned Seal Harbor. Talked to Mr. Houston. Requested 5 men for duty tomorrow.

5:45 p.m. Telephone Otter Creek. Talked to Mr. Richardson. Did not request any men for tomorrow. Did tell him that if he could not get word to everyone that we could work 3 or 4.

Untimed: Favour to Night Sector Bosses: Carriage road entrance to top of Shady Hill (Brown Int. Pass) to be opened by 5:15 a.m.

Untimed: Jackson reported today: Beaver Dam Pool- Kowack worked on 2 south of NE, Southwest Pass (being worked on);

7:19 p.m. Seal Harbor (Mr. Houston) phoned that 5 men would be at intersection.

8:00 p.m. M. Young reports from Largent Mt. All clear. T-4.

8:25 p.m. Favour off duty. Hadley took over.

10:00 p.m. Hagerty relieved Hadley.

Untimed: Work hours for details on day duty will be 8:00 am-6:00 pm beginning 11/7/47. Savage.

Untimed: Cook to Savage: Acadia will need to be furnished as soon as possible a detailed list of equipment actually sent to the park. Identification is going to be difficult at best but all areas that sent equipment should furnish the best description obtainable. RAA and other purchases will probably be most difficult to identify but we should try to get the best we can. I'll try to get the dope from the Director's Office purchases and suggest you do same in Region.

Untimed: Cook to Savage: I think the Region should issue instructions to all areas that send men and/or equipment regarding the handling of costs and reimbursement. 1. Mr. Allen verbally approved while here the payment of overtime for all personnel through the grade of Chief Ranger. What office should approve this and place in line for payment? 2. Should bills for expenses of personnel equipment, etc. be paid locally by contributing areas sent to the Region or to Acadia for payment? 3. Return of used equipment either of the same quality and condition, substitution of equally good, or authorize purchase of equivalent new equipment. If any area is shorted seriously until replacement can be made they should so advise Acadia promptly (or the Region). 4. Method of computation of per diem. Note that meals furnished at the Army Mess should be deducted. Any others obtained, including Red Cross canteen meals, are allowable expenses. Beds in the headquarters building should be deducted.

Untimed: MEMORANDUM FOR ALL CONCERNED: As of 8:00 a.m., Friday, November 7, 1947, full charge of the forest fire, mop up, patrol and equipment salvage will revert to the park organization. Ranger Paul G. Favour will become Park Fire Chief. He will be Fire Boss for the remainder of the present emergency. He will plan all action in connection with the fire, assign patrols, distribute crews to points where crew work is needed, and designate what equipment shall be used and where. General Foreman Douglas will be responsible for all equipment, having reserve stocks in readiness for dispatch to designated points. He will also control transportation, assigning trucks and cars to such personnel as the Fire Boss may designate. B. L. Hadley.

#### NOVEMBER 7

4:25 a.m. Call from State Police saying they had picked up a car with a loaded gun in it on Mt. Ais. They are being taken to the RCMP.

6:00 a.m. Savage relieves Hagerty.

6:42 a.m. Largent Mt. All clear. Wind NNE. Light increasing. 10 miles.

- 7:06 a.m. Beech Mt. 5-10 miles W. Visibility good. 18° still burning. Aunt Betty Pond still burning. 25°. No transportation until 8 am.
- 7:08 a.m. Beech Mt. Lookout wants transportation at 8:30 am instead of 8.
- 7:10 a.m. Sargent Mt. Lookout: Small smoke rear Aunt Betsy Brook. 332°. Small smoke Richardson Brook 347° south Aunt Betty Pond.
