

**Incident Name:** Cougar Creek Fire Dozer Operator Injury (2018)

**State:** Washington

**Date:** 8/04/18

**Incident Type:** Heavy Equipment

**Description of the incident:**

Okanogan-Wenatchee NF. A contract dozer operator was refueling his dozer and slipped off the dozer falling approximately 5-6 feet, then complained of back and neck pain. Due to pre-existing hemophiliac condition, paramedic at ICP advised further evaluation and he was transported via ground ambulance to a hospital. Operator was released to home but not back to work before follow-up with physician.
