

**Incident Name:** Corral Canyon Simulated Fire Cleveland NF Firefighter Fall (2019)

**State:** California

**Date:** 8/20/19

**Incident Type:** Fall

**Description of the Incident:**

An Engine Crewmember working on a training fire slipped, fell and suffered a fractured hip. The Firefighter complained of extreme hip pain to a Forest Service EMT. The EMT began immobilization and two additional cooperators Medics assisted in hiking the Firefighter via backboard to a road and waiting ALS ambulance. The ambulance took the Firefighter to a hospital where the Firefighter was admitted.
