

Lt. Lyle Crandall with the Ponca City Fire Department was seriously injured Friday afternoon [February 26] while responding to a reported grass fire. Lt. Crandall and one other firefighter were on a special detail when the call came in. They had to respond back to the fire station to pick up a brush pumper. During this transfer, Lt. Crandall was accidentally run over by the front tires of the fire engine. Lt. Crandall received immediate treatment from the other Ponca City firefighters and was taken by ambulance to the hospital where they were met by a medical helicopter. Lt. Crandall was flown immediately to OU Medical Center in OKC. He sustained traumatic injury to his left foot and leg as well as his right leg.

Please keep Lt. Crandall, his family, and the Ponca City Fire Department in your thoughts and prayers.

Sincerely,

*Dereck Cassady
