

**Incident Name:** Trinity Fire Smokey Bear Hotshot Heat-Related Illness (2019)

**State:** California

**Date:** 8/15/19

**Incident Type:** Medical Emergency

**Description of the Incident:**

On the Trinity Fire on the Shasta-Trinity National Forest, a Smokey Bear Hotshot Crew member began showing signs of a HRI (heat-related illness)—cramping and dehydration. Forest Service EMTs assisted getting the Firefighter to an ALS ambulance. The Firefighter was then driven to a local hospital. The Firefighter received multiple bags of fluid and was then released.
